RETAIL ELECTRICITY PRICES FOR NON-CONTESTABLE CUSTOMERS

Electricity Act 1994

Pursuant to my authority under section 90 of the *Electricity Act 1994*, I hereby decide that, on and from 1 July 2005, the notified prices that ENERGEX Retail Pty Ltd and Ergon Energy Pty Ltd must charge, subject to the provisions of sections 90, 91 and 91A of the *Electricity Act 1994*, to provide customer retail services to non-contestable customers are the applicable prices set out in the attached Tariff Schedule or, as the case may be, the prices obtained by applying the applicable process or processes set out in the attached Tariff Schedule.

As required by section 90(6) of the *Electricity Act 1994*, I state that the notified prices are, except for the price obtained by applying Part 5 of the Tariff Schedule, exclusive of the goods and services tax imposed by the *A New Tax System (Goods and Services Tax) Act 1999* (Commonwealth) ("the *GST Act*").

In addition to the applicable tariff, Ergon Energy Pty Ltd may charge an amount, inclusive of the tax imposed by the *GST Act*, reflecting any additional charges or fees levied on a customer in accordance with any program or scheme for the purchase of electricity from renewable or environmentally-friendly sources (whether or not those charges or fees are calculated on the basis of the customer's electricity consumption), but only if –

- (a) the program or scheme has been approved by the Regulator (as defined in section 62 of the *Electricity Act 1994*); and
- (b) the customer voluntarily participates in such program or scheme.

The charge or fee so levied by Ergon Energy Pty Ltd shall be an amount or rate that is inclusive of the tax imposed by the *GST Act* being the amount that can be ascertained or calculated by referring to the approved program or scheme.

In respect of business customers of ENERGEX Retail Pty Ltd, ENERGEX Retail Pty Ltd may, in addition to the applicable tariff, charge an amount, exclusive of the tax imposed by the *GST Act*, reflecting any additional charges or fees levied on a customer in accordance with any program or scheme for the purchase of electricity from renewable or environmentally-friendly sources (whether or not those charges or fees are calculated on the basis of the customer's electricity consumption), but only if –

- (c) the program or scheme has been approved by the Regulator (as defined in section 62 of the *Electricity Act 1994*); and
- (d) the customer voluntarily participates in such program or scheme.

The charge or fee so levied by ENERGEX Retail Pty Ltd shall be an amount or rate that is exclusive of the tax imposed by the *GST Act* being the amount that can be ascertained or calculated by referring to the approved program or scheme.

In respect of customers who are customers of ENERGEX Retail Pty Ltd but are not business customers of ENERGEX Retail Pty Ltd, ENERGEX Retail Pty Ltd may, in addition to the applicable tariff, charge an amount, inclusive of the tax imposed by the *GST Act*, reflecting any additional charges or fees levied on a customer in accordance with any program or scheme for the purchase of electricity from renewable or environmentally-friendly sources (whether or not those charges or fees are calculated on the basis of the customer's electricity consumption), but only if –

- (e) the program or scheme has been approved by the Regulator (as defined in section 62 of the *Electricity Act 1994*); and
- (f) the customer voluntarily participates in such program or scheme.

The charge or fee so levied by ENERGEX Retail Pty Ltd shall be an amount or rate that is inclusive of the tax imposed by the *GST Act* being the amount that can be ascertained or calculated by referring to the approved program or scheme.

Dated this 29th day of June 2005.

TARIFF SCHEDULE

Note 1: In this Schedule, references to a "retail entity" include a distribution entity in circumstances where a distribution entity is acting through a retail entity.

Note 2: For the purposes of ss. 90, 91 and 91A of the *Electricity Act 1994* (Qld), the tariffs, except for those obtained by applying Part 5 (Queensland Government Electricity Rebate), are exclusive of the goods and services tax ("GST") implemented by the Commonwealth of Australia's Act "A New Tax System (Goods and Services Tax) Act 1999".

Note 3: To ensure the correct application of the tariffs set out in this Schedule, the retail entity and the customer must have regard to Part 3 (Application of Tariffs - General).

Part 1

TARIFFS FOR DOMESTIC, COMMERCIAL AND RURAL APPLICATIONS

Tariff 11 - Domestic (Lighting, Power and Continuous Water Heating) -

This tariff is applicable to electricity supplied to domestic premises primarily for the personal use of the resident/s of those premises. Where premises are primarily operated as a business, including the provision of short stay accommodation of a holiday nature, Tariff 11 is not applicable.

This tariff is also applicable to electricity used in separately metered common sections of domestic premises consisting of more than one flat or home unit.

First 100 kilowatt hours per residence or flat per month	17.97 c/kWh
Next 300 kilowatt hours per residence or flat per month	12.20 c/kWh
Remaining kilowatt hours	10.89 c/kWh
Minimum Payment per residence or flat per month	\$8.06

Further applications of this tariff are described in Part 4 (Concessional Applications of Tariff 11).

Tariff 20 - General Supply -

This tariff shall not apply in conjunction with any of Tariffs 21, 22, 23, 62 and 63 at the same installation.

First 10,000 kilowatt hours per month	13.75 c/kWh
Remaining kilowatt hours	12.00 c/kWh
plus a Service Fee per metering point per month of	\$8.56

Tariff 21 - General Supply -

This tariff shall not apply in conjunction with any of Tariffs 20, 22, 23, 62 and 63 at the same installation.

First 100 kilowatt hours per month	17.08 c/kWh
Next 9,900 kilowatt hours per month	16.04 c/kWh
Remaining kilowatt hours	12.21 c/kWh
Minimum Payment per month	\$7.65

Tariff 22 - General Supply - Time-of-Use -

This tariff shall not apply in conjunction with any of Tariffs 20, 21, 23, 62 and 63 at the same installation.

For electricity consumed between the hours of 7.00 a.m. and 9.00 p.m., Monday to Friday inclusive -

First 10,000 kilowatt hours per month	16.70 c/kWh
Remaining kilowatt hours	13.53 c/kWh

For electricity consumed at other times -

All Consumption	5.89 c/kWh
-----------------	-------------------

Plus a Service Fee per metering point per month of **\$18.84**

Tariff 23 - General Supply - Time-of-Use (Obsolescent)-

No new customers will be supplied under this tariff. It is available only to customers taking supply under Tariff 23 at 26 March 1995.

This tariff shall not apply in conjunction with any of Tariffs 20, 21, 22, 62 and 63 at the same installation.

For electricity consumed between the hours of 7.00 a.m. and 9.00 p.m., Monday to Friday inclusive -

First 100 kilowatt hours per month	29.56 c/kWh
Next 9,900 kilowatt hours per month	18.09 c/kWh
Remaining kilowatt hours	14.85 c/kWh

For electricity consumed at other times -

All Consumption	6.23 c/kWh
-----------------	-------------------

Under this tariff the required minimum monthly consumption at "other times" shall be 500 kilowatt hours. If the monthly consumption at "other times" is less than 500 kilowatt hours, the shortfall will be charged at the rate applicable at "other times".

Tariff 31 - Night Rate (Super Economy) -

Applicable when electricity supply is permanently connected to apparatus or to specified parts of apparatus as set out below (but not applicable, except as described in (c) below, if provision has been made to supply such apparatus or the specified part thereof under a different tariff during the restricted period) -

- (a) Electric storage water heaters with thermostatically controlled or continuously operating heating units and which comply with the construction and performance requirements of Australian Standard Specification 1361 or 1056 or previous Standards superseded by these two Standards or similar electric water heaters which are approved for connection by the retail entity.

Where the heating unit rating exceeds 1 800 watts, it shall not exceed 13.5 watts per litre of heat storage volume for heat exchange type water heaters or 15.5 watts per litre of rated hot water delivery for other storage type water heaters.

The following conditions shall apply to any booster heating unit fitted:-

- (i) its rating shall not exceed that of the main heating unit;
- (ii) it shall be connected so as to prevent its being energised simultaneously with the main heating unit;
- (iii) electricity consumed by the booster heating unit shall be metered under and charged at the tariff applicable to general power usage at the premises concerned;
- (iv) it shall be located in accordance with the provisions of the above Standards.

- (b) Solar-heated water heaters. Where the electric heating unit rating exceeds 1 800 watts, it shall not exceed 13.5 watts per litre of storage tank capacity.

If a circulating water pump is fitted to the system, continuous supply will be available to the pump, and electricity consumed shall be metered under and charged at the tariff applicable to general power usage at the premises concerned.

- (c) One-shot boost for solar-heated water heaters with electric heating units as described in (b) above.

A current held changeover relay may be fitted to the water heater to deliver, at the customer's convenience, a 'one-shot boost' supply to the electric heating element at times when supply is not available under this Tariff 31 (generally between the hours of 7.00 a.m. and 10.00 p.m.). Such supply is subject to thermostatically controlled switch-off. Electricity consumed during operation of the one-shot boost shall be metered under and charged at the tariff applicable to general power usage at the premises concerned.

Supply and installation of a current held changeover relay, including the cost of same, is the responsibility of the customer.

(Reference in this Schedule to a 'booster heating unit' does not mean a current held changeover relay which is capable of delivering a 'one-shot boost'.)

- (d) Heatpump water heaters. Where the rated electrical input, as shown on the nameplate, exceeds 1 800 watts, it shall not exceed 13.5 watts per litre of storage tank capacity.
- (e) Heatbanks. Booster heating units are permitted in heatbanks in which the main element rating is at least 2 kilowatts. The following conditions shall apply to any booster heating unit fitted:-
 - (i) its rating shall not exceed 70% of the rating of the main heating unit;
 - (ii) it shall be connected so as to prevent its being energised simultaneously with the main heating unit;
 - (iii) electricity consumed by the booster heating unit shall be metered under and charged at the tariff applicable to general power usage at the premises concerned.
- (f) Loads other than water heaters and heatbanks, but is not applicable:-
 - (i) to arc or resistance welding plant;
 - (ii) where the apparatus is duplicated in order that supply may be obtained on a different tariff for the same purpose during the restricted period.

Supply will be available for a minimum of 8 hours per day during time periods set at the discretion of the retail entity. In general, this supply will be between the hours of 10.00 p.m. and 7.00 a.m. Under certain circumstances, a portion of the 8 hour supply period may be made available at other times.

The retail entity will supply and maintain load control equipment at its cost.

All Consumption	5.01 c/kWh
Minimum Payment per month	\$3.29

Tariff 33 - Controlled Supply (Economy) -

Applicable when electricity supply is permanently connected to apparatus as set out below (but not applicable if provision has been made to supply such apparatus under a different tariff in the periods during which supply is not available under this tariff) -

- (a) Electric storage water heaters with thermostatically controlled or continuously operating heating units and which comply with the construction and performance requirements of Australian Standard Specification 1361 or 1056 or previous Standards superseded by these two Standards or similar electric water heaters which are approved for connection by the retail entity.

Where the heating unit rating exceeds 1 800 watts, it shall not exceed 13.5 watts per litre of heat storage volume for heat exchange type water heaters or 15.5

watts per litre of rated hot water delivery for other storage type water heaters;

(b) Solar-heated water heaters. Where the electric heating unit rating exceeds 1 800 watts, it shall not exceed 13.5 watts per litre of storage tank capacity;

(c) Heatpump water heaters. Where the rated electrical input, as shown on the nameplate, exceeds 1 800 watts, it shall not exceed 13.5 watts per litre of storage tank capacity;

(d) As a sole supply tariff for domestic installations, as approved by the retail entity, where photovoltaic cell/ battery bank/ inverter apparatus is used to provide a supplementary supply to the interruptible supply provided by this tariff;

(e) Other individual loads in domestic installations, but is not applicable:-

(i) to arc or resistance welding plant and boosted heatbanks;

(ii) where the apparatus (except for refrigeration and non-boosted heatbanks) is duplicated in order that supply may be obtained on a different tariff for the same purpose in the periods during which supply is not available under this tariff.

The retail entity will supply and maintain load control equipment at its cost.

Supply will be available for a minimum of 18 hours per day, but the times when supply is available may be subject to variation at the absolute discretion of the retail entity.

All Consumption **7.37 c/kWh**

Minimum Payment per month **\$3.29**

Tariff 37 - Non-Domestic Heating - Time-of-Use -

Applicable to permanently connected -

(a) Electric storage water heaters in non-domestic installations with thermostatically controlled or continuously operating heating units and which comply with the construction and performance requirements of Australian Standard Specification 1361 or 1056 or previous Standards superseded by these two Standards or similar electric water heaters which are approved for connection by the retail entity.

The heating unit rating shall not exceed 40.5 watts per litre of heat storage volume for heat exchange type water heaters or 46.5 watts per litre of rated hot water delivery for other storage type water heaters;

(b) Apparatus for the production of steam;

(c) Heating loads other than (a) and (b) above. The minimum total connected load under this section of this tariff is 4 kilowatts. Supplementary load that is permanently connected as an integral part of the installation may be supplied under this section provided that the aggregated rating of such supplementary load does not exceed 10 per cent of the heating load.

For electricity consumed between the hours of 4.30 p.m. and 10.30 p.m. **18.28 c/kWh**

For electricity consumed between the hours of 10.30 p.m. and 4.30 p.m. **7.31 c/kWh**

Minimum Payment per month **\$3.13**

Tariff 41 - Low Voltage General Supply Demand -

Demand Charge -

\$20.25 per kilowatt of chargeable demand per month.

Energy Charge -

All Consumption **4.27 c/kWh**

plus a Service Fee per metering point per month of **\$28.84**

The chargeable demand in any month shall be:-

(a) the maximum demand recorded in that month; or

(b) 60 percent of the highest maximum demand recorded in any of the preceding eleven months; or

(c) 75 kilowatts,

whichever is the highest figure.

"Demand" shall mean the average demand in kilowatts over a period of 30 minutes, as measured on the retail entity's meters.

Customers taking supply under this tariff will not be supplied under any other tariff at the same premises.

Tariff 43 - General Supply Demand - Time-of-Use -

Demand Charge -

\$8.77 per kilowatt of chargeable demand per month.

Energy Charge -

For electricity consumed between the hours of 7.00 a.m. and 11.00 p.m. Monday to Friday inclusive **8.66 c/kWh**

For electricity consumed at all other times **3.47 c/kWh**

plus a Service Fee per metering point per month of **\$28.84**

The chargeable demand in any month shall be:-

(a) the maximum demand recorded in that month; or

(b) 60 percent of the highest maximum demand recorded in any of the preceding eleven months; or

(c) 400 kilowatts,

whichever is the highest figure.

"Demand" shall mean the average demand in kilowatts over a period of 30 minutes, as measured on the retail entity's meters.

Customers taking supply under this tariff will not be supplied under any other tariff at the same premises.

Tariff 53 - High Voltage General Supply Demand - Time-Dependent -

Supply Voltage	11kV to 33kV	66kV and above
Demand Charge (\$/kW/month)	19.18	18.50
Night Excess* Demand Charge (\$/kW/month)	5.44	5.27
Energy Charge (c/ kWh)	4.03	3.92

plus a Service Fee per metering point per month of **\$74.55**

***Night Excess** for a billing month is the number of kilowatts by which the demand recorded outside the interval 7.00 a.m. to 9.00 p.m. Monday to Friday inclusive exceeds the demand recorded within this interval in the month.

The minimum total demand charge applicable in any month shall be equivalent to 300 kilowatts charged at **\$19.18** per kilowatt for voltages up to 33kV and **\$18.50** per kilowatt for voltages at 66kV and above, or 60 per cent of the highest charge at the rates applicable in accordance with the requirements of this tariff to the metered monthly demands for any of the preceding eleven months, whichever is the higher.

"Demand" shall mean the average demand in kilowatts over a period of 30 minutes, as measured on the retail entity's meters.

Supply under this tariff will be at a standard high voltage, the level of which shall be prescribed by the retail entity. Credits for high voltage supply are not applicable to this tariff.

Customers taking supply under this tariff will not be supplied under any other tariff at the same premises.

Tariff 62 - Farm - Time-of-Use -

This tariff shall not apply in conjunction with Tariff 20, 21, 22, 23 or 63 at the same installation.

For electricity consumed between the hours of 7.00 a.m. and 9.00 p.m., Monday to Friday inclusive -

First 10,000 kilowatt hours per month **17.56 c/kWh**

Remaining kilowatt hours **14.84 c/kWh**

For electricity consumed at other times -

All Consumption **6.21 c/kWh**

plus a Service Fee per metering point per month of **\$9.01**

Tariff 63 - Farm - Time-of-Use (Obsolescent) -

No new customers will be supplied under this tariff. It is available only to customers taking supply under Tariff 63 at 26 March 1995.

This tariff shall not apply in conjunction with Tariff 20, 21, 22, 23 or 62 at the same installation.

For electricity consumed between the hours of 7.00 a.m. and 9.00 p.m., Monday to Friday inclusive -

First 100 kilowatt hours per month **31.13 c/kWh**

Next 9,900 kilowatt hours per month **19.06 c/kWh**

Remaining kilowatt hours **14.93 c/kWh**

For electricity consumed at other times -

All Consumption **6.57 c/kWh**

Under this tariff the required minimum annual consumption at "other times" shall be 3 000 kilowatt hours. If the annual consumption at "other times" is less than 3 000 kilowatt hours, the shortfall will be charged at the rate applicable at "other times" at the time that the charge for the shortfall is being calculated.

Tariff 64 - Irrigation - Time-of-Use (Obsolescent) -

No new customers will be supplied under this tariff. It is available only to customers taking supply under Tariff 64 at 26 March 1995.

For electricity consumed in a fixed 12 hour daily pricing period (as agreed between the retail entity and the customer from the range 7.00 a.m. to 7.00 p.m.; 7.30 a.m. to 7.30 p.m.; or 8.00 a.m. to 8.00 p.m.) Monday to Sunday inclusive -

All Consumption **15.21 c/kWh**

For electricity consumed at other times -

All Consumption **8.36 c/kWh**

Minimum Payment per month **\$8.06**

No alteration to the selected daily pricing period shall be permitted until a period of twelve months has elapsed from the previous selection.

Tariff 65 - Irrigation - Time-of-Use -

For electricity consumed in a fixed 12 hour daily pricing period (as agreed between the retail entity and the customer from the range 7.00 a.m. to 7.00 p.m.; 7.30 a.m. to 7.30 p.m.; or 8.00 a.m. to 8.00 p.m.) Monday to Sunday inclusive –

All Consumption **14.01 c/kWh**

For electricity consumed at other times -

All Consumption **7.71 c/kWh**

plus a Service Fee per metering point per month of **\$9.01**

No alteration to the selected daily pricing period shall be permitted until a period of twelve months has elapsed from the previous selection.

Tariff 66 - Irrigation -

Annual Fixed Charge (in respect of each point of supply) - per kilowatt of connected motor **capacity** used for irrigation pumping -

First 7.5 kilowatts **\$14.23** per kilowatt

Remaining kilowatts **\$42.78** per kilowatt

plus

Energy Charge -

All Consumption - **7.35 c/kWh**

plus a Service Fee per metering point per month of **\$19.86**

Minimum Annual Fixed Charge - As calculated for 7.5 kW (Note - 7.5 kW is equivalent to 10.05 h.p.).

Any customer taking supply under this tariff who requests a temporary disconnection will not be reconnected unless the outstanding balance of the Annual Fixed Charge for part of the year corresponding to the period of disconnection has been paid.

Tariff 67 – Farm – Applicable only to customers supplied under the Rural Subsidy Scheme introduced in 1973.

Annual Payment – An Annual Payment calculated in accordance with the provisions of the 1973 Rural Subsidy Scheme and as set down in the Rural Subsidy Scheme Agreement between the customer and the retail entity;

plus

Energy Charge –

All Consumption **15.16 c/kWh**

Minimum Payment per month **\$8.06**

Tariff 68 - Irrigation Pumping in Drought Declared Area

Refer to Part 6 (Relief from Electricity Charges where Drought Declaration in Force) for details about the conditions, price and eligibility for Tariff 68.

Part 2**TARIFFS FOR UNMETERED SUPPLY INCLUDING PUBLIC LAMPS, TRAFFIC SIGNALS, WATCHMAN LIGHTING AND TEMPORARY SERVICES****Tariff 71 - Public Lamps -**

*The "Per Watt" charge shall apply to the nominal wattage rating of the public lamp.

Rate 1 - Applicable where the capital costs of the installation are borne by the retail entity.

Rate 2 - Applicable where the capital costs of the installation are not borne by the retail entity.

Rate 3 - Applicable to installations such as freeway lighting where the capital and maintenance costs of the installation are not borne by the retail entity.

Charges for incandescent lamps shall apply only in the following areas:

- the Capricornia and South West Regions of Ergon Energy Corporation Limited's Distribution Area; and
- ENERGEX Limited's Distribution Area.

Tariff 81 - Traffic Signals - Continuously Operating -

For electricity supplied to continuously operating traffic signals installed on a road:-

\$0.88 per 10 watts (or part thereof) per installation per month.

Tariff 91 - Watchman Service Lighting -**Part 3**

For electricity supplied to Watchman Service Lighting:-

\$0.3952 per 10 watts (or part thereof) per lamp per month. This charge shall apply to the nominal wattage rating of each lamp.

Charges for installation, maintenance and removal of Watchman Service Lighting apply in addition to the above charge for electricity supplied.

Builder's Temporary Service

Unmetered electricity supply is available to a builder's temporary service, as approved by the retail entity.

For unmetered electricity supply to a builder's temporary service, the customer shall be charged the minimum payment per month under Tariff 21 for each month that electricity is supplied (pro-rated for supply for a part of a month).

Charges for installation, maintenance and removal of a builder's temporary service may apply in addition to the above charge for electricity supplied.

Temporary Services to Department of Defence, Department of Health and Similar Mobile Facilities

Unmetered electricity supply is available to Department of Defence, Department of Health and similar mobile facilities, as approved by the retail entity.

For unmetered electricity supply to a Department of Defence, Department of Health or similar mobile facility, the customer shall be charged at general supply rates under Tariff 20, on the basis of the estimated electricity consumption at the mobile facility as agreed between the customer and the retail entity.

Charges for installation, maintenance and removal of a temporary service to a mobile facility may apply in addition to the above charge for electricity supplied.

Other Unmetered Supply

Unmetered electricity supply is available to other small uniform steady loads, as approved by the retail entity.

In general, this situation applies where the retail entity considers it impractical to read or maintain a meter or where metering equipment would be susceptible to damage and includes, for example, supply to telephone boxes, illuminated signs and public amenities lighting.

Such supply is to be charged at general supply rates under Tariff 20, 21 or 22, as agreed between the customer and the retail entity, on the basis of the wattage rating of the load multiplied by the hours of operation as agreed between the customer and the retail entity.

APPLICATION OF TARIFFS - GENERAL

Customers may choose to be charged on any of the tariffs that the retail entity agrees are applicable to the customer's installation. If there has been a material change of use at the customer's premises, such that the tariff on which the customer is being charged is no longer applicable, the retail entity may require the customer to transfer to a tariff applicable to the changed use.

Customers have the option, on application in writing or another form acceptable to the retail entity, of changing to any other tariff that the retail entity agrees is applicable to the customer's installation. Customers shall not be entitled to a further option of changing to another tariff until a period of twelve months has elapsed from a previous exercise of option. However, a retail entity at the request of a customer may permit a change to another tariff within a period of twelve months if -

- (i) a tariff that was not previously in force is offered and such tariff is applicable to the customer's installation, or
- (ii) the customer meets certain costs associated with changing to another tariff.

Customers previously supplied under tariffs which have now been discontinued or redesignated (whether by number, letter or name) will be supplied under other tariffs appropriate to their installations.

Tariffs are generally determined on a monthly billing basis.

All accounts for electricity supplied, as calculated in accordance with the provisions of a determination applicable thereto, or such accounts for electricity supplied, as varied by other amounts payable to or by the retail entity, which are for an amount which is not a whole number multiple of five cents, shall be reduced to the amount next closest thereto which is a whole number multiple of five cents.

Pro-Rating Procedure**(a) Following a tariff variation**

For customers subject to the prices and methods of charge set out in Parts 1, 3, 4 and 6, electricity consumed between the meter reading on or next before the date of a variation to the relevant tariff and the meter reading next after such variation date shall be deemed to have been used at a uniform daily rate.

For customers subject to the prices and methods of charge set out in Part 2, electricity consumed between the billing date on or next before the date of a variation to the relevant tariff and the billing date next after such variation date shall be deemed to have been used at a uniform daily rate.

Where the retail entity renders an account in respect of a billing period during which a single variation in tariffs has occurred, the charges for electricity shall be calculated as if the rates of charges for electricity supplied for the whole of the billing period were at the rates applicable after the variation takes effect and adjusting the charges for electricity so calculated as follows:-

If the amount of adjustment is positive it shall be subtracted from the charges for electricity as calculated. If the amount of adjustment is negative it shall be added to the charges for electricity as calculated.

The amount of adjustment shall be calculated as follows:-

$$A = \frac{d}{n} (N - C)$$

Where A	is the amount of the adjustment;
d	is the number equal to the number of days in the billing period which occur in the period commencing on the date of commencement of the billing period and ending on the day immediately before the variation takes effect;
n	is the number equal to the number of days occurring in the billing period;
N	is the amount calculated as if the rates of charges for electricity for the whole of the billing period were at the rates which applied after the variation takes effect;
C	is the amount calculated as if the rates of charges for electricity for the whole of the billing period were at the rates which applied immediately before the variation takes effect.

(b) Daily pro-rating

Daily pro-rating shall apply to electricity billing. The charges for electricity shall be calculated *pro rata* having regard to the relationship of the number of days covered by the account and one-twelfth of three hundred and sixty-five days. The calculation of electricity charges shall be effected by way of an adjustment to the tariff provisions included in this determination. The adjusted provisions shall be calculated as follows:

$$P_a = \frac{P \times 12 \times n}{365} \quad \text{for monthly provisions, and}$$

$$P_a = \frac{P \times n}{365} \quad \text{for annual provisions}$$

Where P _a	is the adjusted provision;
P	includes the monthly provisions of the number of kilowatt hours in the blocks of tariffs, Service Fees, Minimum Payments, minimum consumption at "other times" of Tariffs 23 and 63, demand charges and wattage charges and includes the annual charges for motor capacity and Public Lamps;
n	is the number equal to the number of days occurring in the billing period.

Supply Voltage

(a) Low Voltage

Except where otherwise stated, the tariffs in Part 1 hereof will apply to supply taken at low voltage (480/240 volts or 415/240 volts, 50 Hertz A.C. as required by the retail entity).

(b) High Voltage

(i) Customer plant requirements.

Supply may be given and metered at a standard high voltage, the level of which shall be prescribed by the retail entity, by agreement between the customer and the retail entity. Where high voltage supply is so given, a customer shall supply and maintain all equipment including transformers and high voltage automatic circuit breakers but excepting meters and control apparatus beyond the customer's terminals.

(ii) Credits where L.V. tariff is metered at H.V.

Where supply is given in accordance with (i) above and metered at high voltage then, except in cases where high voltage tariffs are determined or provided by agreement to meet special circumstances, the tariffs applied will be those pertaining to supply at low voltage ("the relevant tariff"), EXCEPT THAT, after billing the energy and demand components of the tariff, a credit will be allowed of –

- 5 per cent of the calculated tariff charge where supply is given at voltages of 11kV to 33 kV; and
- 8 per cent of the calculated tariff charge where supply is given at voltages of 66 kV and above,

(provided that the calculated tariff charge after application of the credit must not be less than the Minimum Payment or other minimum charge calculated by applying the provisions of the relevant tariff.)

The Service Fee applicable to all high voltage supply given at Tariffs 20, 22, 41 and 43 shall be **\$74.55** and shall be applied after the application of the High Voltage credit.

(iii) Discounts where customer meets certain system costs

Where high voltage customers with recorded maximum demands in excess of 1000 kilowatts meet certain costs of providing supply from the Powerlink Queensland connection point nearest to their installations, a discount of up to 9% may be applicable to the energy and demand charges otherwise assessed at the tariffs herein.

Upon written application by the customer the retail entity will evaluate the level of discount appropriate to the installation in question and will negotiate an agreement with the customer which will take effect from the date of written application.

Card-operated Meters in Remote Communities

If a customer is in a remote community and is either a domestic customer or a commercial customer with an estimated consumption of less than 10,000 kilowatt hours per month, the retail entity may agree with the customer, or the relevant remote community Council on behalf of the customer, to measure and charge for the electricity consumed by the customer by means of a card-operated meter. The methodology for applying the appropriate tariffs to customers subject to card-operated meters is as follows:

- (a) If electricity supplied to a domestic customer is measured and charged by means of a card-operated meter:
- (i) for Tariff 11 (Domestic – Lighting, Power and Continuous Water Heating), a fixed payment of **\$1.32** per week shall apply (representative of the difference between the first and second steps of Tariff 11) and all consumption shall be charged at the rate applicable to consumption between 101 and 400 kilowatt hours per month (**12.20 cents/kWh**) under Tariff 11, with no Minimum Payment;
 - (ii) for Tariff 31 (Night Rate – Super Economy), all consumption shall be charged at the 'All Consumption' rate (**5.01 cents/kWh**), with no Minimum Payment; and
 - (iii) for Tariff 33 (Controlled Supply – Economy), all consumption shall be charged at the 'All Consumption' rate (**7.37 cents/kWh**), with no Minimum Payment.
- (b) If electricity supplied to a commercial customer is measured and charged by means of a card-operated meter, all consumption shall be charged at the rate applicable to consumption up to 10,000 kilowatt hours per month under Tariff 20 (General Supply) (**13.75 cents/kWh**), plus a Service Fee of **\$1.96** per week shall apply.

Part 4

CONCESSIONAL APPLICATIONS OF TARIFF 11 (DOMESTIC)

Tariff 11 - Domestic (Lighting, Power and Continuous Water Heating) - is available to:

- A.- Those separately metered installations where all electricity consumed is used in connection with the provision of a Meals on Wheels service or for the preparation and serving of meals to the needy and for no other purpose.**
- B.- Charitable residential institutions which comply with all the following requirements:-**

- (a) Domestic Residential in Nature

The total installation, or that part supplied and separately metered, must be domestic residential (i.e. it must include the electricity usage of the cooking, eating, sleeping and

bathing areas which are associated with the residential usage).

Medical facilities, e.g. an infirmary, which is part of the complex may be included as part of the total installation.

and

- (b) Charitable

An eligible organisation is a public benevolent institution as defined under section 78(4) of the *Income Tax Assessment Act 1936* to which donations of \$2 and upwards are tax deductible.

In addition, it must be a non-profit organisation that:-

- (i) imposes no scheduled charge on the residents for the services or accommodation that is provided (i.e. organisations that provide emergency accommodation facilities for the needy); or
- (ii) if scheduled charges are made for the services or accommodation provided, then all residents must be pensioners or, if not pensioners, persons eligible for subsidised care under the *Aged or Disabled Persons Care Act 1954*, the *National Health Act 1953* or the *Nursing Homes Assistance Act 1974*.

For application of the Domestic tariff to charitable residential institutions under Part 4B, a multiplier will be calculated by dividing the maximum residential capacity of the complex by 3.6.

An application for the Domestic tariff with a multiplier shall be made by the public officer of the organisation concerned setting out such information as is required by the retail entity concerned to determine eligibility.

Renewal of an application may be sought periodically.

C.- Organisations providing support and crisis accommodation which comply with the following requirements:-

An organisation which:

- (i) meets the eligibility criteria of the Supported Accommodation Assistance Program (SAAP) administered by the State Department of Families and is therefore eligible to be considered for funding under this program. (Funding provided to organisations under SAAP is subject to Part 3, Sections 10 to 13 inclusive, of the *Family Services Act 1987*);

and

- (ii) is a public benevolent institution as defined under section 78(4) of the *Income Tax Assessment Act 1936* to which donations of \$2 and upwards are tax deductible.

Part 5

QUEENSLAND GOVERNMENT ELECTRICITY
REBATE

1. A Queensland Government Electricity Rebate is available to customers provided the customer:
 - (a) holds a current and valid card of the following type -
 - (i) Pensioner Concession Card, issued by either Centrelink or the Department of Veterans' Affairs; or
 - (ii) Repatriation Health Card for All Conditions (Gold Card) and is in receipt of one of the following payments:
 - (A) War Widow (including Widowed Mother [AMS] Pension); or
 - (B) Special Rate T.P.I. (including Blinded Disability) Pension; or
 - (iii) Queensland Government Seniors Card; and
 - (b) is a registered customer of a retail entity at the premises for which the rebate is claimed and the premises is the customer's principal place of residence, and the only residence in Queensland for which the customer claims the rebate; and
 - (c) lives alone or shares the premises in respect of which the rebate is claimed with:
 - (i) the customer's spouse; or
 - (ii) other persons who hold a current and valid card of the type described in paragraph (a) above; or
 - (iii) other persons wholly dependent on the customer; or
 - (iv) other persons who receive an income support payment from Centrelink, Family Assistance Office or Department of Veterans' Affairs and who do not pay rent; or
 - (v) other persons who live with the customer to provide care and assistance and who do not pay rent; and

declares that no other person(s) except casual visitors share the residence with the customer; and
 - (d) makes application for a rebate either by submitting the relevant form or, at the discretion of the retail entity, by telephone and the application is received and accepted at an office of a retail entity at least fourteen (14) days prior to the next billing period.
2. Where an electricity account is in more than one name, and more than one resident is eligible to receive the rebate, each resident may have their eligibility established. However, only one rebate per household will be paid.
3. The retail entity may, at any time, require a new application from a customer and if the customer fails to lodge such form within the time specified by the retail entity the rebate shall cease.
4. A Queensland Government Electricity Rebate is also applicable to the electricity account of residential home parks and other similar multi-tenanted residential premises provided the following sub-conditions are met:
 - (a) the customer (ie. the owner or operator of the multi-tenanted residential premises) of the retail entity at the premises concerned -
 - (i) supplies electricity to each of the separately identifiable vans, flats or home units, or other similar living units at the premises; and
 - (ii) charges for electricity on the basis of metered consumption; and
 - (iii) is claiming the rebate on behalf of eligible persons residing at the premises ("claimant residents"); and
 - (iv) will fully pass on the rebate to claimant residents by way of a reduction in charges for electricity; and
 - (b) each separately identifiable living unit for which the rebate is claimed is occupied by persons who, if they had been supplied directly by the retail entity, would have been eligible for the electricity rebate; and
 - (c) a rebate is applicable only to claimant residents for the full period of each electricity account being paid; and
 - (d) a completed rebate application form must be produced with the customer's electricity account at the time payment is tendered.
5. The rebate is **\$9.57** (GST exclusive) per billing month applied against the dollar and cents value of the electricity consumed based on the applicable (GST exclusive) Tariffs. In no instance shall the rebate paid be greater than the amount billed (excluding GST) for electricity consumed (based on consumption) in a period for which the rebate is claimed.
6. The process for application of the rebate is best illustrated by an example where the dollar and cents value of the electricity consumed is \$100.00 in a billing month. Therefore the bill rendered by the retail entity will be \$110.00 (\$100.00 plus GST of \$10.00) less \$10.53 (\$9.57 plus GST of \$0.96). That is the bill will be \$99.47.

Part 6**RELIEF FROM ELECTRICITY CHARGES WHERE DROUGHT DECLARATION IN FORCE**

A customer who is a farmer in a drought declared area or whose property is individually drought declared under Queensland Government administrative processes is eligible for the following forms of relief from electricity charges:

(A) Tariff 68 – Irrigation Pumping in Drought Declared Area

A customer who is a farmer in a drought declared area or whose property is individually drought declared may transfer individually metered irrigation pumping loads to this tariff until the drought declaration is revoked. Provided that, if water pumping time restrictions continue to apply after the drought declaration is revoked, the customer may remain on this tariff until the water pumping time restrictions are lifted or until 12 months after the revocation of the drought declaration, whichever is the earlier.

All consumption **11.27 c/kWh**

The conditions set out in Part 3, applicable to customers changing from one tariff to another, do not apply in the case of a customer who transfers individually metered irrigation pumping loads to or from this Tariff 68.

(B) Waiving of Fixed Charge Components of Electricity Charges

If a customer who is a farmer in a drought declared area or whose property is individually drought declared has no water to pump, the fixed components of the customer's electricity charges shall be waived. These fixed charge components include minimum payments, service fees, annual fixed charges under Tariff 66 and guarantee agreement shortfall charges.

Provided the drought declaration remains operative, the waiver applies to all fixed charges applicable to any account covering the period in which pumping ceased and to any subsequent account until the customer once again has water to pump. If the operative drought declaration is revoked before the customer once again has water to pump, the waiver shall continue to apply until water is available or until 12 months after the revocation of the drought declaration, whichever is the earlier.

(C) Deferral of Payment

If a customer who is a farmer in a drought declared area or whose property is individually drought declared cites financial difficulties as a result of the drought, the customer is entitled to defer payment of the customer's electricity accounts relating to farm consumption.

The retail entity may charge interest on deferred accounts. However, the rate of any interest charged must not be more than the Bank Bill reference rate for 90 days, as published on the first business day of each quarter.

Subject to the maximum rate of interest that may be charged, the terms of the deferred payment and the

repayment of deferred amounts following revocation of the drought declaration will be as agreed between the retail entity and the customer concerned.

Eligibility for Relief

A customer seeking relief from electricity charges, including a transfer of irrigation pumping loads to Tariff 68, on the basis that the customer is a farmer who is in a drought declared area or whose property is individually drought declared, must apply in writing to the retail entity.

If required by the retail entity, the customer must provide:

- (a) evidence that the customer's property is in a drought declared area or is individually drought declared, including the effective date of such drought declaration;
- (b) evidence of the water pumping restrictions applicable to the customer's property; and
- (c) evidence that the customer is experiencing financial difficulties as a result of the drought.

Notes.—As prescribed under sections 94, 95, 96 and 114 of the *Public Service Act 1996* and Part 1 of the *Appeals Directive* (No.: 11/96): an appeal can not be made to the Public Service Commissioner against a decision to appoint or second an officer or other person to Senior Officer levels (SO1 and SO2), and; otherwise, an officer entitled to appeal must satisfy the following requirements—

- the officer must have applied for a vacancy to which one of the following persons was promoted:
 - an officer of a Department;
 - a general employee of a Department with tenure;
 - an officer of a Public Service Office;
 - a general employee of a Public Service Office with tenure; or
 - a tenured public sector employee of a public sector unit listed in Schedule 3 of the *Appeals Directive*;
- the officer's application for the vacancy must have been received before the deadline for the receipt of applications;
- the officer's notice of appeal must be actually received by the Public Service Commissioner before the deadline for its receipt; and
- the officer must continue to be entitled to appeal (*see s. 1(1) of Appeals Directive*).

- (a) Appointees may be required to serve in any part of the State. Where a centre is included under "Locality", the headquarters of the appointee will be at such centre unless otherwise determined.
- (b) An appointment has been declared by the Public Service Commissioner, by gazette notice, to be a non-appealable appointment, pursuant to section 95 of the *Public Service Act 1996*.
- (c) Also being advertised in daily press and/or internet/email advertising or technical journals.
- (d) Appointment to a particular level will depend on qualifications and experience.
- (e) The appointee may be appointed in a temporary capacity. If a tenured employee of the Public Service is selected for appointment, the officer will retain tenured status.
- (f) Appointment may be made on the basis of a contract for a fixed term, pursuant to sections 69 and 70 of the *Public Service Act 1996*.
- (g) Senior Officer levels (SO1 and SO2): salary sacrifice may be made for optional benefits of employer funded superannuation options and professional organisation membership fees.
- (h) In accordance with section 5.13 of the *Directive 4/02, Deployment and Redeployment*, registered employees will be considered on relative merit.

In the know?

Every week, Queensland Government gazettes are keeping hundreds of people in the know, telling them all about...

Natural resources – all acquisitions of land including proclamations and resumptions in relation to the Queensland Department of Natural Resources.

Transport – all acquisitions of land including proclamations and resumptions in relation to the Queensland Department of Main Roads.

Local Government – local law and town planning issues relating to the Queensland Department of Local Government – approved planning schemes and/or amendments for Local Councils in Queensland.

Vacancies – job vacancies and appointments within the Queensland Government.

General government – appointments, regulations for Queensland Government, public and probate notices.

Other gazettes

Industrial – Queensland Government industrial agreements and awards.

Procurement – invites offers from business for the supply of goods and/or services to the Queensland Government and local authorities. Also lists successful tenders and contracts.

Most gazettes can be purchased individually or collectively in a single bound volume. All gazettes are available at the Goprint Bookshop every Friday from 1.00pm, except the Procurement Gazette which is published every Wednesday. Gazettes are also available through mail order or subscription.

SCHEDULE

LONG SERVICE LEAVE

1. Entitlement

1.1. Public service employees including public service officers, temporary employees, general employees and casual employees (**referred to as "employees" in this schedule**) are entitled to long service leave on full pay as provided in this schedule.

2. Long service leave entitlement and accrual

2.1 An employee who completes 10 years continuous service is entitled to long service leave on full pay of:

- 6.5 working days for each year of continuous service; or
- 1.3 calendar weeks for each year of continuous service; and
- a proportionate amount for an incomplete year of service.

2.2 It is at the chief executive's discretion whether the leave is calculated in working time or calendar time.

2.3 Part-time employees

(a) The permanent part-time employment arrangements contained in the relevant industrial instrument apply or, where there are none, those contained in the *Flexible Work Practices Framework and Options Kit* (Number 1 in the Attraction and Retention Series) apply.

(b) The qualifying period for long service leave purposes for part-time employees is 10 calendar years of continuous service worked on a part-time basis, or a combination of full, part-time and or casual service.

2.4 Casual employees

(a) For the purpose of this directive, the service of a casual employee is regarded as continuous if the employee has service that has been recognised for long service leave purposes and it extends over a period of 10 years or longer.

(b) A casual employee's entitlement to long service leave is to be calculated as follows:

Number of hours x rate of pay

Where:

$$\text{Number of hours} = \frac{\text{total hours of work} \times 13}{52 \times 10}$$
3. Definitions

3.1 "**continuous service**" includes service and periods of leave that have been recognised for long service leave purposes under the relevant directive.

3.2 "**daily hours**" means:

- the number of ordinary daily working hours of an employee as specified in the relevant industrial instrument; or
- in any other case – the number of hours specified in the relevant industrial instrument as the average number of hours per working day of an employee during a pay period or other period that is reasonable in the circumstances.

3.3 "**employee's legal personal representative**" means the executor or administrator of an employee's estate.

3.4 "**full pay**" means the employee's ordinary rate of pay and is inclusive of any fixed allowances that are part of the regular fortnightly pay.

3.5 "**half pay**" means half of the rate of full pay.

3.6 "**industrial instrument**" means an award, industrial agreement, certified agreement, contract, former determination of the Governor-in-Council, directive or determination made under section 149 of the *Industrial Relations Act 1999*.

3.7 "**ordinary rate**" means the rate that the relevant industrial instrument states is payable for ordinary time.

3.8 "**teacher**" means an employee determined by the chief executive to be a teacher for the purpose of this directive.

3.9 "**weekly hours**" means:

- the number of ordinary weekly working hours of an employee as specified in the relevant industrial instrument; or
- in any other case – the number of hours specified in the relevant industrial instrument as the average number of hours per working week of an employee during a pay period or other period that is reasonable in the circumstances.

4. Departmental convenience

4.1 The taking of long service leave is subject to departmental convenience.

5. Application for long service leave

5.1 Applications for long service leave are to be made in writing or in a form determined by the chief executive.

6. Timely notice

6.1 An employee is to give timely notice of the date from which long service leave is to take effect.

6.2 The employer must respond to a request to take long service leave in a timely manner indicating whether the leave applied for has been approved or not.

7. Timing of leave

7.1 An employer and employee may agree when the employee is to take long service leave.

7.2 If the employer and employee cannot agree on the timing of the leave, the employer may decide when the employee is to take leave by giving the employee at least 3 months written notice of the date on which the employee must take at least 4 weeks long service leave.

8. Recall or cancellation of leave

8.1 If departmental circumstances require it, a chief executive may:

- recall an employee from long service leave; or
- cancel the approval of any long service leave; or
- defer the taking of long service leave.

8.2 An employee who is recalled or whose leave is cancelled will be allowed to take leave at the earliest opportunity that is mutually convenient for the employee and the chief executive.

8.3 Where an employee has incurred expenses, such as deposit payments, relating to payments for accommodation and/or travel for the employee and/or their immediate family, and those expenses are lost due to a recall, cancellation or deferral of leave by the chief executive, the expenses will be reimbursed by the department. Such reimbursement is conditional upon the employee producing evidence of losses incurred, in the form of receipts or other evidence to the satisfaction of the chief executive.

9. Leave granted on an hourly basis

9.1 If an employee applies for leave on a basis other than an hourly basis, the leave may be granted on an hourly basis.

10. Leave based on the number of hours that the employee would have worked

10.1 Where leave is calculated in working time and an employee is rostered to work a specific number of hours on a day and the employee is absent from duty on that day, or for part of it, the employee's leave account is to be reduced. This reduction will be the number of hours that the employee was rostered to work on that day but did not work.

11. Minimum period

11.1 The minimum period of long service leave that may be taken at any one time is 2 calendar weeks (exclusive of public holidays) except in the following situations:

- where an employee is recalled from long service leave; or
- where an employee becomes ill and is granted sick leave instead of the long service leave already approved; or
- where the employer gives an employee at least 3 months written notice for the employee to take long service leave in the event the employer and employee are unable to agree on the timing of the leave.

12. Calculation of leave available

12.1 The period of long service leave which an employee can take must not exceed the amount of long service leave to which the employee is entitled on the date of commencement of the leave. This period of long service leave will be calculated by:

- determining the total period of the employee's continuous service, including leave credited for service; and
- determining the total amount of long service leave entitlement appropriate to that period of continuous service; and
- deducting from the total long service leave entitlement, any long service leave previously taken.

13. Payment of long service leave

13.1 Payment of long service leave is based on the calculation of leave available (see clause 12.1 above) and the full pay to which the employee is entitled in his or her substantive position unless the conditions in the ministerial directive: *Higher Duties* apply.

14. Public holidays occurring during long service leave

14.1 Long service leave is exclusive of any public holiday that falls during the period of the leave.

14.2 Long service leave will be extended by any public holiday falling on an employee's normal working day during the period of the leave. Any such days will be added to the end of the period of the leave, irrespective of the days on which they fall.

15. Extension of long service leave on a half pay basis

15.1 Long service leave may be granted on half pay for the following purposes:

- family responsibilities; or
- study.

15.2 Granting of the leave on half pay is subject to departmental convenience, however requests for leave should not be unreasonably refused.

15.3 The standard conditions in this directive apply to half pay long service leave arrangements in the following way:

(a) Leave accrual

While on half pay long service leave, an employee will accrue all leave at the rate at which it was accruing immediately before the employee took half pay long service leave, i.e. leave will accrue as if the employee was engaged in their normal full-time or part-time employment.

(b) Leave debit

Periods of half pay long service leave will be debited on a full-time equivalent basis. For example, half pay long service leave for a period of 8 weeks will attract a debit of 4 weeks from full pay credits.

(c) Locality Allowance

For employees with an entitlement to locality allowance under an industrial instrument, the allowance will be paid on a proportionate basis for the period of the leave i.e. half the normal entitlement.

(d) Minimum period of the leave

Half pay long service leave must be taken for a minimum 2 calendar weeks. The leave may be taken in conjunction with other forms of leave.

(e) Public Holidays

Half pay long service leave is exclusive of any public holiday that falls during the period of the leave. Half pay long service leave will be extended by any public holiday falling during the period of the leave. A public holiday that falls during a period of half pay long service leave will be paid at half pay.

16. Teachers and vacation periods

16.1 A vacation to which a teacher is entitled will not be counted as forming part of any period of long service leave taken by that teacher.

17. Sick leave instead of long service leave

17.1 Sick leave may be granted instead of long service leave already approved where:

(a) an employee becomes ill before the start of the long service leave and, before starting the leave, submits a written application for sick leave, supported by a medical certificate or other evidence of the illness acceptable to the chief executive; or

(b) an employee becomes ill after starting the long service leave and submits a written application for sick leave, supported by a medical certificate or other evidence of the illness acceptable to the chief executive, and the period of illness is at least 1 calendar week.

18 Cash equivalent of long service leave on termination

18.1 A person who ceases to be an employee and who, at the date of cessation, has an entitlement to long service leave under this schedule, is to receive a payment instead of the long service leave not taken.

18.2 The calculation of the amount of the payment is based on:

- the employee's entitlement to long service leave as at the date of cessation;
- less any long service leave previously taken; and
- the full-pay rate payable to the employee at the employee's substantive position at the date of ceasing employment, unless the conditions in the ministerial directive: *Higher Duties* apply.

19 Public holidays in relation to a cash equivalent of long service leave

19.1 A cash equivalent of long service leave also attracts the benefit of public holidays that would occur during the long service leave if it were granted immediately upon cessation of duty.

19.2 Where cash payments are being made for recreation leave and long service leave, only one type of leave is to be adjusted for public holidays and payment in respect of any public holiday may be made only once. The longer period of leave is to be used for this purpose.

20. Entitlement to a proportionate payment after 7 years continuous service

20.1 An employee who has completed at least 7 years continuous service is entitled to a proportionate payment for long service leave on the termination of the employee's service.

However, if the employee's service is terminated before the employee has completed 10 years continuous service, the employee is entitled to a proportionate payment only if:

(a) the employee terminates his or her service because of:

- ill health or incapacity that are significant but does not qualify for ill health retirement; or
- a domestic or other pressing necessity¹; or

(b) the employer:

- dismisses the employee for a reason other than the employee's conduct, capacity or performance; or
- unfairly dismisses the employee.

21. Entitlement to a proportionate payment after less than 7 years continuous service

21.1 Proportionate payments will be made to employees who have completed less than 7 years continuous service only where their employment has been terminated in the following circumstances and they have completed the period of continuous service prescribed below:

(a) On termination of contract

Where the chief executive terminates the employment of an officer on a contract of employment under section 70 of the *Public Service Act 1996* and the termination is for reasons other than disciplinary action or retirement on grounds of mental or physical incapacity – **1 year of continuous service.**

(b) On action because of surplus

A public service employee whose position is deemed to be surplus to the department's needs because the department employs more employees than it needs for the effective, efficient, economical and appropriate performance of its functions; or the duties performed by the employee are no longer required – **1 year of continuous service.**

(c) Voluntary retirement

An employee referred to in section 86 of the *Public Service Act 1996* who:

- has elected to retire from the public service on turning 55; and
- who is not an employee who is deemed to be surplus to the department's needs; or
- is permitted to retire under a directive – **5 years continuous service.**

(d) Ill health retirement

A person referred to in section 85 of the *Public Service Act 1996*, who is retired on the grounds of mental or physical incapacity – **5 years continuous service.**

(e) On marriage

A female officer who was employed under the former *Public Service Act 1922* and was appointed before 18 July 1988, resigns to be married – **5 years continuous service.**

Payment under this section is dependent upon:

- a certified copy or certified extract of the certificate of marriage or a statutory declaration by both parties to the marriage giving the place and date of marriage, being furnished to the chief executive; and
- the marriage happening within 3 months of the date of resignation.

This clause expires on 18 July 2005.

(f) On death

An employee who dies – **5 years continuous service.**

22. Payment on an employee's death

22.1 Where a long service leave entitlement is payable to an employee who has died, the payment will be made to the employee's legal personal representative.

¹ See Circular 4/01

23. Taking pro rata long service leave after 7 years in connection with parental leave

23.1 Employees are entitled to take pro rata long service leave after 7 years continuous service in connection with parental leave as defined in Chapter 2, Part 2 of the *Industrial Relations Act 1999* in the following way:

(a) In the case of a pregnant employee

In addition to paid maternity leave, a period of long service leave can be taken instead of the equivalent period of unpaid parental leave, provided that:

- the total period of leave does not exceed 52 weeks; and
- the employee will be the child's primary care giver for the period of the long service leave.

(b) Where the employee's spouse has given birth to a child

A period of long service leave can be taken after the birth of the child instead of an equivalent period of unpaid parental leave, provided that:

- the total period of leave does not exceed 52 weeks; and
- the employee will be the child's primary care giver for the period of the long service leave.

(c) In the case of the adoption of a child

A period of long service leave can be taken instead of an equivalent period of unpaid parental leave, provided that:

- the total period of leave does not exceed 52 weeks; and
- the employee will be the child's primary care giver for the period of the long service leave.

24. Payment instead of long service leave to a continuing employee

24.1 Pursuant to the *Industrial Relations Act 1999*, an employee may be paid for all or part of an entitlement to long service leave instead of taking the leave or part of the leave if one of the following applies –

(a) If an award, certified agreement or industrial agreement applying to the employee provides for the payment of all or part of an entitlement to long service leave instead of taking the leave or part of the leave, payment may be made in accordance with the award or agreement, if the employer and employee agree by a signed agreement; or

(b) If no award, certified agreement or industrial agreement provides for the employee to be paid for all or part of an entitlement to long service leave instead of taking the leave or part of the leave, payment may be made only if the payment is ordered by the Queensland Industrial Relations Commission on application by the employee.

The Commission may order the payment only if satisfied that the payment should be made –

- on compassionate grounds; or
- on the ground of financial hardship.

25. Conversion to hourly basis

25.1 Leave prescribed in this directive may be converted to hours using the formulae set out below for the purpose of accrual, granting and recording of leave.

25.2 Where leave entitlement is expressed in weeks

If an employee's long service leave entitlement is expressed in weeks, it may be read as if it were expressed in hours using the following formula:

$$LE = W \times WH$$

Where:

LE (leave entitlement) means the amount of leave, expressed in working hours to which the employee is entitled.

W (weeks)

means the entitlement accrued in calendar weeks under this directive.

WH (weekly hours)

means:

- (a) the employee's weekly hours of work; or
- (b) the average number of hours per week in the relevant industrial instrument for an employee during a pay period or other period that is reasonable in the circumstances.

25.3 Where leave entitlement is expressed in days

If an employee's long service leave entitlement is expressed in days, it may be read as if it were expressed in hours using the following formula:

$$LE = D \times DH$$

Where:

LE (leave entitlement) means the amount of leave expressed in working hours to which the employee is entitled.

D (days)

means the entitlement accrued in calendar days under this directive.

DH (daily hours)

means:

- (a) the employee's daily hours of work; or
- (b) the average number of hours per day in the relevant industrial instrument for an employee during a pay period or other period that is reasonable in the circumstances.

25.4 Where leave entitlement is expressed in weeks and days

Where an employee's long service leave entitlement is expressed in weeks and days, the conversion to hours of the weeks and days components should be calculated separately and then added to give the new entitlement.

For example, to convert an entitlement where the leave balance is 5 weeks and 3 days:

- (a) for a public service officer on 36.25 hours a week:

$$LE \text{ (weeks)} = 5 \times 36.25 = 181.25$$

$$LE \text{ (days)} = 3 \times 7.25 = \underline{21.75}$$

Total entitlement (in hours) 203 hours;

or

- (b) for an employee on 38 hours a week:

$$LE \text{ (weeks)} = 5 \times 38.00 = 190$$

$$LE \text{ (days)} = 3 \times 7.60 = \underline{22.8}$$

Total entitlement (in hours) 212.8 hours.
