**GATEWAY ARTERIAL ROAD (U13C)  
(Gateway Motorway – North)  
BRISBANE CITY COUNCIL**

Commencing from its junction with the Gateway Motorway near the south eastern corner of Lot 16 on RP908538 in Banyo, travelling in a general north westerly direction to its junction with the Gympie Arterial Road in Bald Hills.

Length: 15.36 kilometres (approximately)

The parts of the road to which access is to be limited are shown on plans LA12423, LA12424, LA12425, LA12426, LA12427, LA12428, LA12429, LA12430, LA12431 and LA12432. Copies of the Limited Access (LA) plans are held in the Metropolitan Regional Office of the Department of Transport and Main Roads at 313 Adelaide Street, Brisbane City QLD 4000.

The reason for the declaration is to:

- (1) Ensure that the arterial and motorway function of the Road is preserved.

- (2) Maintain an appropriate road hierarchy with the surrounding road network.
- (3) Maximise the Road's traffic carrying capacity and safety characteristics.
- (4) Ensure an ongoing high level of access to service the region and as a connection to the arterial network.

Any person whose interests are affected by the declaration may:

- (1) Under section 485 of the *Transport Infrastructure Act 1994* – ask for the decision to make the declaration to be reviewed by the Chief Executive.
- (2) Under the *Transport Planning and Coordination Act 1994*, part 5, division 2 – apply for the original decision to be stayed; and
- (3) Under the *Transport Planning and Coordination Act 1994*, part 5, division 3 –
  - (a) appeal against the Chief Executive's decision on the review to the court stated in Schedule 3 of the *Transport Infrastructure Act 1994* for the decision; and
  - (b) apply for the reviewed decision to be stayed.

Notice is hereby given that there is a policy in place in relation to the application of s62 of the *Transport Infrastructure Act 1994* to access between Gateway Arterial Road (Gateway Motorway – North) (U13C) and adjacent land. The policy is set out below.

#### **POLICY FOR GATEWAY MOTORWAY (Gateway Motorway – North) (U13C)**

##### **1. PURPOSE**

The purpose of this policy is to protect the function, safety and efficiency of Gateway Motorway (Gateway Motorway – North) (U13C) (the “Road”) by setting out the principles that will be applied when making decisions relating to vehicular access under s62 of the *Transport Infrastructure Act 1994*.

In this respect, the management of access is essential to:

- (1) Ensure that the motorway and arterial function of the Road is preserved.
- (2) Maintain an appropriate road hierarchy with the surrounding road network.
- (3) Maximise the Road's traffic carrying capacity and safety characteristics.
- (4) Ensure an ongoing high level of access to service the surrounding areas.
- (5) Ensure surrounding land uses and activity centres remain accessible.
- (6) Cater for planned increases in the surrounding land use and the anticipated growth in traffic volumes, public transport services and active transport trips.
- (7) Ensure vulnerable road uses such as cyclists and pedestrians are catered for in line with government policy.
- (8) Ensure that future growth and changing land use does not adversely impact on the Road's arterial function and its connection to the wider road network.

Not permitting any additional direct access to the Road is essential to achieve the road vision.

##### **2. HEAD OF POWER**

This policy has been made pursuant to s54 of the *Transport Infrastructure Act 1994*.

### 3. ROAD VISION

The following vision for the Road sets the context within which the Policy Principles (section 5) and the Policy Strategies (section 6) will be applied.

The Road incorporates the Gateway Motorway declared as a Motorway. The Road is a key component of the State-controlled Road network for freight, commuter, and general traffic movement. The Road carries substantial traffic on the motorway and arterial network and performs a critical role within the broader transport network

The Road must maintain its important arterial link. In the future, general capacity will need to be accommodated at key intersections, interchanges and connections to accommodate future travel demands, growing traffic volumes, level of service and the need for safety and reliability of driving conditions. The purpose and vision of this Limited Access Policy is to preserve and protect the Road's efficiency and motorway and arterial function. The Department of Transport and Main Roads anticipates the need for improvements to the connections to the Motorway and arterial network, enhanced public, and active transport.

Therefore, this Limited Access Policy for the Road does not permit any direct Access to the Road. All access to the Road is to be via the existing system of local government, service roads and controlled grade separated interchanges. Access locations will continue to be rationalised.

The Road and road infrastructure has been constructed to prevent vehicular access.

### 4. APPLICATION

This policy will be applied in assessing applications made under s62 or s62A of the *Transport Infrastructure Act 1994*.

This policy will also be applied in the context of:

- (1) the preparation, amendment or review of local, state and federal government planning schemes and other planning instruments to ensure that:
  - (a) Land uses reflect the policy principles and policy strategies and preserve the function of the Road.
  - (b) The local road network is developed to provide access to land where access from the Road is not supported.
  - (c) The vision for the Road identified in section 3 is accommodated.
- (2) General transport planning relevant to managing access to limited access roads; and
- (3) When assessing development applications made pursuant to the planning act for impacts on the Road.

### 5. POLICY PRINCIPLES

When making a decision relating to the management of access between land and the Road, the following principles will be applied:

- (1) Access must not compromise safety of the users of the Road or any other transport infrastructure.
- (2) Access must be consistent with the functional requirements of the Road.
- (3) Access must be consistent with the current or planned intent for the Road corridor and the wider State-controlled road network.

In applying the principles, regard will be had to the following strategies:

- (1) The strategies applying to vehicular access to State-controlled roads set out in the *Vehicular access to state-controlled roads policy*<sup>1</sup>.
- (2) The Policy Strategies set out in section 6.

Where there is inconsistency between the strategies set out in the *Vehicular access to state-controlled roads policy* and the Policy strategies set out in this policy, the policy strategies set out in this policy prevail.

## 6. POLICY STRATEGIES

### SAFETY

**Principle 1: vehicular access must not compromise safety of the users of the Road or any other transport infrastructure.**

Safety is paramount. Given the high-speed, high volume road environment and form and function of the Road, new direct access to the road will not be permitted.

**Strategy 1 No additional vehicular access locations for properties adjoining the Road will be permitted.**

There are no direct property accesses onto the Road. To ensure the ongoing safety of road users, no new road access will be permitted.

### FUNCTION

**Principle 2: Vehicular access must be consistent with the functional requirements of the Road.**

The primary function of the Road is as an arterial route or motorway. To preserve this function, all direct property access to the Road have been removed as the Road was progressively upgraded to a Motorway. Access to the Road is provided via a system of service or local government roads on either side of the road and at controlled grade separated interchanges

**Strategy 1 No additional vehicular access locations for properties adjoining the Road will be permitted.**

There are no direct accesses to the Road. To preserve the existing function of the Road as a Motorway, no new access will be permitted.

### FUTURE INTENT

**Principle 3: Vehicular access must be consistent with the current or planned intent for the wider network.**

The Department of Transport and Main Roads anticipates that additional capacity will need to be provided in the future, to accommodate growing traffic volumes, level of service and the need for safety.

**Strategy 1 No additional vehicular access locations for properties adjoining the Road will be permitted.**

There are no direct property accesses onto the Road. To maintain the existing safety levels along the Road, no new road access will be permitted.

---

<sup>1</sup> July 2019

## 7. APPROVAL

This policy applies to the Road and will be applied when making decisions under s62 of the *Transport Infrastructure Act 1994*.

Dated: 22 August 2023

Signed: Daniel Johnson (Project Director, Metropolitan Region) Delegate of the Director-General, Department of Transport and Main Roads

## 8. ADDITIONAL INFORMATION

This policy replaces another limited access policy for the Road, namely that contained in:

Queensland Government Gazette dated 28<sup>th</sup> July 1995 but does not replace the declaration of the Road as Motorway under section 27 of the *Transport Infrastructure Act 1994*.

- (1) The amendment merely changes or repeals a specific provision for 1 or more particular properties.
- (2) The owner or occupier of each property has been given written notice of the amendment.

Any person whose interests are affected by this policy may:

- (1) Under s 485 of the *Transport Infrastructure Act 1994* – ask for the decision about the policy to be applied to be reviewed.
- (2) Under Part 5, Division 2 of the *Transport Planning and Coordination Act 1994* – apply for the original decision to be stayed.
- (3) Under Part 5, Division 3 of the *Transport Planning and Coordination Act 1994*:
  - (a) appeal against a decision on a review;
  - (b) apply for the reviewed decision to be stayed.

Under s 61 of the *Transport Infrastructure Act 1994*, a person must not construct or change a physical means of entry or exit for traffic between land and a limited access road without first obtaining a decision under s62(1) that authorises the construction or change. Maximum penalty – 200 penalty units.

The purpose and vision of this Limited Access Policy is to preserve the Road's motorway and arterial function. The Department of Transport and Main Roads anticipates the need for improvements, including vertical and horizontal alignment improvements, connections to the Motorway and arterial network and for enhanced public and active transport.

Therefore, this Limited Access Policy for the Road does not permit any direct Access to the Road. All access to the Road is to be via the existing system of local road intersections and controlled grade separated interchanges.

The road infrastructure has been planned and/or constructed to prevent direct vehicular access.

#### 4. APPLICATION

This policy will be applied in assessing applications made under s 62 or 62A of the *Transport Infrastructure Act 1994*.

This policy will also be applied in the context of:

- (1) the preparation, amendment or review of local, state and federal government planning schemes and other planning instruments to ensure that:
  - (a) land uses reflect the Policy Principles and Policy Strategies and preserve the function of the Road;
  - (b) the local road network is developed to provide access to land where access from the Road is not supported;
  - (c) the vision for the Road identified in section 3 is accommodated;
- (2) general transport planning relevant to managing access to limited access roads; and
- (3) when assessing development applications made pursuant to the planning act for impacts on the Road.

#### 5. POLICY PRINCIPLES

When making a decision relating to the management of access between land and the Road, the following principles will be applied:

- (1) access must not compromise safety of the users of the Road or any other transport infrastructure;
- (2) access must be consistent with the functional requirements of the Road;
- (3) access must be consistent with the current or planned intent for the Road corridor and the wider State-controlled road network.

In applying the principles, regard will be had to the following strategies:

- (1) the strategies applying to vehicular access to State-controlled roads set out in the *Vehicular access to state-controlled roads policy*<sup>1</sup>; and
- (2) the Policy Strategies set out in section 6.

<sup>1</sup> July 2019

Where there is inconsistency between the strategies set out in the *Vehicular access to state-controlled roads policy* and the Policy Strategies set out in this policy, the Policy Strategies set out in this policy prevail.

## 6. POLICY STRATEGIES

### SAFETY

#### **Principle 1: vehicular access must not compromise safety of the users of the Road or any other transport infrastructure**

Safety is paramount. Given the high-speed, high volume road environment and form and function of the Road, new direct access to the road will not be permitted.

#### **Strategy 1 No additional vehicular access locations for properties adjoining the Road will be permitted.**

There are no direct property accesses onto the Road. To ensure the ongoing safety of road users, no new road access will be permitted.

### FUNCTION

#### **Principle 2: Vehicular access must be consistent with the functional requirements of the Road**

The primary function of the Road is as an arterial route or motorway. To preserve this function, all direct property access to the main carriageway of the Road have been removed as the Road was progressively upgraded to a Motorway. Access to the Road, including service roads, is provided via a system of service roads on either side of the road and at controlled grade separated interchanges

#### **Strategy 1 No additional vehicular access locations for properties adjoining the Road will be permitted.**

There are no direct property accesses onto the Road, including the service roads. To preserve the existing function of the Road as a Motorway, no new road access will be permitted.

### FUTURE INTENT

#### **Principle 3: Vehicular access must be consistent with the current or planned intent for the wider network**

The Department of Transport and Main Roads anticipates that additional capacity will need to be provided at existing interchanges into the future, to accommodate growing traffic volumes, level of service and the need for safety.

#### **Strategy 1 No additional vehicular access locations for properties adjoining the Road will be permitted.**

There are no direct property accesses onto the Road and service roads. To maintain the existing safety levels along the Road, no new road access will be permitted.

**7. APPROVAL**

This policy applies to the Road and will be applied when making decisions under s 62 of the *Transport Infrastructure Act 1994*.

Dated: 22 August 2023

Signed: Daniel Johnson (Project Director, Metropolitan Region) Delegate of the Director-General, Department of Transport and Main Roads

**8. ADDITIONAL INFORMATION**

Queensland Government Gazette dated 28<sup>th</sup> July 1995 but does not replace the declaration of the Road as Motorway under section 27 of the *Transport Infrastructure Act 1994*.

- (1) the amendment merely changes or repeals a specific provision for 1 or more particular properties; and
- (2) the owner or occupier of each property has been given written notice of the amendment.

Any person whose interests are affected by this policy may:

- (1) under s 485 of the *Transport Infrastructure Act 1994* – ask for the decision about the policy to be applied to be reviewed;
- (2) under Part 5, Division 2 of the *Transport Planning and Coordination Act 1994* – apply for the original decision to be stayed;
- (3) under Part 5, Division 3 of the *Transport Planning and Coordination Act 1994*:
  - (a) appeal against a decision on a review;
  - (b) apply for the reviewed decision to be stayed.

Under s 61 of the *Transport Infrastructure Act 1994*, a person must not construct or change a physical means of entry or exit for traffic between land and a limited access road without first obtaining a decision under s 62(1) that authorises the construction or change. Maximum penalty – 200 penalty units.

Length: 18.30 kilometres (approximately)

The parts of the road to which access is to be limited are shown on plans LA12306, LA12307, LA12308, LA12309, LA12310, LA12311, LA12312, LA12313, LA12314, LA12315 and LA12316. Copies of the Limited Access (LA) plans are held in the Metropolitan Regional Office of the Department of Transport and Main Roads at 313 Adelaide Street, Brisbane City QLD 4000.

The reason for the declaration is to:

- (1) Ensure that the arterial and motorway function of the Road is preserved.
- (2) Maintain an appropriate road hierarchy with the surrounding road network.
- (3) Maximise the Road's traffic carrying capacity and safety characteristics.
- (4) Ensure an ongoing high level of access to service the region and as a connection to the arterial network.

Any person whose interests are affected by the declaration may:

- (1) under section 485 of the *Transport Infrastructure Act 1994* – ask for the decision to make the declaration to be reviewed by the Chief Executive.
- (2) under the *Transport Planning and Coordination Act 1994*, part 5, division 2 – apply for the original decision to be stayed; and

Notice is hereby given that there is a policy in place in relation to the application of section 62 of the *Transport Infrastructure Act 1994* to access between the Centenary Motorway and adjacent land. The policy is set out below.

### **POLICY FOR CENTENARY MOTORWAY (Ellen Grove – Toowong) (U18A)**

#### **1. PURPOSE**

The purpose of this policy is to protect the function, safety and efficiency of Centenary Motorway (Ellen Grove – Toowong) (U18A) (the “**Road**”) by setting out the principles that will be applied when making decisions relating to vehicular access under s 62 of the *Transport Infrastructure Act 1994*.

In this respect, the management of access is essential to:

- (1) Ensure that the motorway and arterial function of the Road is preserved.
- (2) Maintain an appropriate road hierarchy with the surrounding road network.
- (3) Maximise the Road's traffic carrying capacity and safety characteristics.
- (4) Ensure appropriate level of access to service the surrounding areas.
- (5) Ensure surrounding land uses and activity centres remain accessible through the appropriate road network hierarchy.
- (6) Cater for planned changes in the surrounding land use and the anticipated growth in traffic volumes, public transport services and active transport trips.
- (7) Ensure vulnerable road users such as cyclists and pedestrians are catered for in line with government policy.
- (8) Ensure that future growth and changing land use does not adversely impact on the Road's arterial function and its connection to the wider road network.

Not permitting any additional direct access to the Road is essential to achieve the Road Vision.

#### **2. HEAD OF POWER**

This policy has been made pursuant to s54 of the *Transport Infrastructure Act 1994*.

#### **3. ROAD VISION**

The following vision for the Road sets the context within which the policy principles (section 5) and the policy strategies (section 6) will be applied.

The Road incorporates the road declared as Centenary Motorway (U18A). The Road is a key component of the state-controlled road network and Southeast Queensland (SEQ) Motorway network. It connects to the Logan Motorway (210), the Cunningham Arterial Road (Ipswich Motorway U16), the Moggill Sub-Arterial Road (U96), the Western Arterial Road (U18B). The road will also connect to future state-controlled road's: Kenmore Bypass (as part of Moggill Pocket Arterial) and the Inner Orbital. The Road also connects to Legacy Way tunnel to form a broader network.

The Centenary Motorway plays a critical role within the broader SEQ transport network providing a key link that carries a mix of inter-regional and intra-regional traffic.

Direct access between adjoining properties and the Road are not permitted given the Road's Motorway status. All access to and from the Road shall be via controlled grade separated interchanges that include tunnel portals.

The vision for the Road is that it continues as a key arterial road for commercial and intra-regional traffic with provisions for public transport and active transport. Distance between interchanges is to be in accordance with the Department of Transport and Main Roads design principles and guidelines.

The purpose and vision of this Limited Access Policy is to preserve and protect the Road's motorway and arterial function. The Department of Transport and Main Roads anticipates the need for improvements with connections to the existing and future state-controlled network, with enhancements to public and active transport provisions.

Therefore, this Limited Access Policy for the Road does not permit any direct access to the Road. All access to the Road is to be via controlled grade separated interchanges that include tunnel portals.

The Road and Road infrastructure has been planned and constructed to prevent vehicular access.

#### 4. APPLICATION

This policy will be applied in assessing applications made under s62 or s62A of the *Transport Infrastructure Act 1994*.

This policy will also be applied in the context of:

- (1) the preparation, amendment or review of local, state, and federal government planning schemes and other planning instruments to ensure that:
  - (a) Land uses reflect the Policy Principles and Policy Strategies and preserve the function of the Road.
  - (b) The local road network is developed to provide access to land where access from the Road is not supported.
  - (c) The vision for the Road identified in section 3 is accommodated.
- (2) General transport planning relevant to managing access to limited access roads.

#### 5. POLICY PRINCIPLES

When making a decision relating to the management of access between land and the Road, the following principles will be applied:

- (1) Access must not compromise safety of the users of the Road or any other transport infrastructure.
- (2) Access must be consistent with the functional requirements of the Road.
- (3) Access must be consistent with the current or planned intent for the Road corridor and the wider State-controlled Road network.

In applying the principles, regard will be had to the following strategies:

- (1) The strategies applying to vehicular access to State-controlled roads set out in the *Vehicular access to state-controlled roads policy*.<sup>1</sup>
- (2) The Policy Strategies set out in section 6.

Where there is inconsistency between the strategies set out in the *Vehicular access to state-controlled roads policy* and the Policy Strategies set out in this policy, the Policy Strategies set out in this policy prevail.

### **POLICY FOR REDCLIFFE SUB-ARTERIAL ROAD (U99)**

#### **1. PURPOSE**

The purpose of this policy is to protect the function, safety, and efficiency of Redcliffe Sub-Arterial Road (U99) (the “**Road**”) by setting out the principles that will be applied when making decisions relating to vehicular access under s62 of the *Transport Infrastructure Act 1994*.

In this respect, the management of access is essential to:

Not permitting any additional direct access to the Road is essential to achieve the road vision.

#### **2. HEAD OF POWER**

This policy has been made pursuant to 54 of the *Transport Infrastructure Act 1994*.

#### **3. ROAD VISION**

The following vision for the Road sets the context within which the Policy Principles (section 5) and the Policy Strategies (section 6) will be applied.

The Road is a key component of the State-controlled road network which connects to the Gateway Motorway and the Houghton Highway as the key arterial route to the Redcliffe Peninsula. The Road forms a major route between Brisbane, the northern bayside suburbs and Redcliffe and is one of the main north-south routes for Brisbane for public transport and general traffic movement.

The Road is facing pressure from increasing development on both sides of the road as the surrounding suburbs expand and intensify and because of its proximity to and interface with the Gateway Motorway.

The Road will remain and continue to grow as an important arterial link performing a vital network function as an important general and freight transport corridor. In the future, general capacity will need to be accommodated at key intersections and connections to accommodate future travel demands, growing traffic volumes, level of service and the need for safety and reliability of driving conditions. The purpose and vision of this Limited Access Policy is to preserve the Road's arterial function. The Department of Transport and Main Roads anticipates the need for improvements to the Motorway and arterial network, enhanced public, and active transport.

Therefore, this Limited Access Policy for the Road does not permit any direct Access to the Road. All access to the Road is to be via the existing system of service and local government roads and controlled grade separated interchanges.

#### 4. APPLICATION

This policy will be applied in assessing applications made under s62 or s62A of the *Transport Infrastructure Act 1994*.

This policy will also be applied in the context of:

- (1) The preparation, amendment or review of local, state and federal government planning schemes and other planning instruments to ensure that:
  - (a) land uses reflect the policy principles and policy strategies and preserve the function of the Road;
  - (b) the local road network is developed to provide access to land where access from the Road is not supported;
  - (c) the vision for the Road identified in section 3 is accommodated;
- (2) General transport planning relevant to managing access to limited access roads.
- (3) When assessing development applications made pursuant to the planning act for impacts on the Road.

#### 5. POLICY PRINCIPLES

When making a decision relating to the management of access between land and the Road, under s62 or s62A of the *Transport Infrastructure Act, 1994*, the following principles will be applied:

- (1) Access must not compromise safety of the users of the Road or any other transport infrastructure.
- (2) Access must be consistent with the functional requirements of the Road.
- (3) Access must be consistent with the current or planned intent for the Road corridor and the wider State-controlled Road network.

In applying the principles, regard will be had to the following strategies:

- (1) The strategies applying to vehicular access to State-controlled roads set out in the *Vehicular access to state-controlled roads policy*<sup>1</sup>.
- (2) The Policy Strategies set out in section 6.

---

<sup>1</sup> July 2019

- (3) maximise the Road's traffic carrying capacity and safety characteristics;
- (4) ensure an ongoing high level of access to service the surrounding areas;
- (5) ensure surrounding land uses and activity centres remain accessible;
- (6) cater for planned increases in the surrounding land use and the anticipated growth in traffic volumes, public transport services and active transport trips;
- (7) ensure vulnerable road users such as cyclists and pedestrians are catered for in line with government policy; and
- (8) ensure that future growth and changing land use does not adversely impact on the Road's motorway and arterial function and its connection to the wider road network.

Not permitting any additional direct access to the Road is essential to achieve the road vision.

## 2. HEAD OF POWER

This policy has been made pursuant to s54 of the *Transport Infrastructure Act 1994*.

## 3. ROAD VISION

The following vision for the Road sets the context within which the policy principles (section 5) and the policy strategies (section 6) will be applied.

The Road incorporates road from Dinmore to Ipswich - Boonah Road which has been declared a Motorway and it continues as major arterial to the intersection with Sugarloaf Road. The Road is a key component of the State-controlled road network which connects to the Cunningham Highway (17A), Warrego Highway (U15A), Centenary Motorway (U18A), Ipswich Cunningham Highway Connection Road (301), Ipswich – Boonah Road (211), Ipswich – Rosewood Road (304) and the arterial network. The Road is a key arterial road for freight, commuter and general traffic movement and part of the National Key Freight route.

The Road is facing pressure from increasing residential, industrial and commercial development on both sides of the Road as the surrounding suburbs expand and intensify. Constructed noise mitigation barriers and protected flora species also need to be protected from access intrusions.

The Road will remain and continue to grow as an important arterial link performing a vital network function into the future as an important general and freight transport corridor in line with Queensland Freight Strategy. In the future, general capacity will need to be accommodated at key intersections and connections to accommodate future travel demands, growing traffic volumes, level of service and the need for safety and reliability of driving conditions.

The purpose and vision of this Limited Access Policy is to preserve the Road's motorway and arterial function. The Department of Transport and Main Roads anticipates the need for improvements for road connections to the Motorway, arterial network and active transport.

Other than the existing lawful driveway access points, no additional access points are permitted along this road for any new or intensified activities.

## 4. APPLICATION

This policy will be applied in assessing applications made under s62 or s62A of the *Transport Infrastructure Act 1994*.

This policy will also be applied in the context of:

- (1) the preparation, amendment or review of local, state and federal government planning schemes and other planning instruments to ensure that:

- (a) land uses reflect the policy principles and policy strategies and preserve the function of the Road;
  - (b) the local road network is developed to provide access to land where access from the Road is not supported;
  - (c) the vision for the Road identified in section 3 is accommodated;
- (2) general transport planning relevant to managing access to limited access roads; and
  - (3) when assessing development applications made pursuant to the Planning Act for impacts on the Road.

## 5. POLICY PRINCIPLES

When making a decision relating to the management of access between land and the Road under s62 or s62A of the Transport Infrastructure Act, 1994, the following principles will be applied:

- (1) access must not compromise safety of the users of the Road or any other transport infrastructure;

In applying the principles, regard will be had to the following strategies:

- (1) the strategies applying to vehicular access to State-controlled roads set out in the *Vehicular access to state-controlled roads policy*<sup>1</sup>; and
- (2) the policy strategies set out in section 6.

Where there is inconsistency between the strategies set out in the *Vehicular access to state-controlled roads policy* and the Policy Strategies set out in this policy, the Policy Strategies set out in this policy prevail.

In this respect, the management of access is essential to:

- (1) Ensure that the arterial function of the Road is preserved.
- (2) Maintain an appropriate road hierarchy with the surrounding road network.
- (3) Maximise the Road's traffic carrying capacity and safety characteristics.
- (4) Ensure an ongoing high level of access to service the surrounding areas.
- (5) Ensure surrounding land uses and activity centres remain accessible.
- (6) Cater for planned increases in the surrounding land use and the anticipated growth in traffic volumes, public transport services and active transport trips.
- (7) Ensure vulnerable road uses such as cyclists and pedestrians are catered for in line with government policy; and
- (8) Ensure that future growth and changing land use does not adversely impact on the Road's arterial function and its connection to the wider road network.

Not permitting any additional direct access to the Road is essential to achieve the Road Vision.

## 2. HEAD OF POWER

This policy has been made pursuant to s54 of the *Transport Infrastructure Act 1994*.

## 3. ROAD VISION

The following vision for the Road sets the context within which the policy principles (section 5) and the policy strategies (section 6) will be applied.

The Road is a key component of the State-controlled Road network which connects to the Warrego Highway (18A) and the arterial network surrounding Ipswich and further, to the North Coast and to the Darling Downs area. The Road forms a strategic connection to these for freight and general traffic movement between Ipswich and a number of towns in the Brisbane Valley area, including Fernvale and Esk and beyond to the South Burnett.

The areas along the Road within the urban footprint are facing pressure from increasing residential development while the remainder of the corridor supports rural related activities on both sides of the road.

The Road will remain and continue to grow as an important arterial link performing a vital network function. In the future, general capacity will need to be accommodated at key intersections and connections to accommodate future travel demands, growing traffic volumes, level of service and the need for safety and reliability of driving conditions. The purpose and vision of this Limited Access Policy is to preserve the Road's arterial function. The Department of Transport and Main Roads anticipates the need for improvements to the arterial network.

Therefore, this Limited Access Policy for the Road does not permit any direct Access to the Road. All access to the Road is to be via the existing system of service and local government road intersections and controlled grade separated interchanges.

## 4. APPLICATION

This policy will be applied in assessing applications made under s62 or s62A of the *Transport Infrastructure Act 1994*.

This policy will also be applied in the context of:

  - (a) land uses reflect the Policy Principles and Policy Strategies and preserve the function of the Road;
  - (b) the local road network is developed to provide access to land where access from the Road is not supported;
  - (c) the vision for the Road identified in section 3 is accommodated;
- (2) General transport planning relevant to managing access to limited access roads.
- (3) When assessing development applications made pursuant to the planning act for impacts on the Road.

## 5. POLICY PRINCIPLES

When making a decision relating to the management of access between land and the Road under s 62 or 62A of the *Transport Infrastructure Act 1994* the following principles will be applied:

- (1) Access must not compromise safety of the users of the Road or any other transport infrastructure.

- (2) Access must be consistent with the functional requirements of the Road.
- (3) Access must be consistent with the current or planned intent for the Road corridor and the wider State-controlled Road network.

In applying the principles, regard will be had to:

- (1) The strategies applying to vehicular access to State-controlled roads set out in the *Vehicular access to state-controlled roads policy*<sup>1</sup>.
- (2) The policy strategies set out in section 6.

Where there is inconsistency between the strategies set out in the *Vehicular access to state-controlled roads policy* and the policy strategies set out in this policy, the policy strategies set out in this policy prevail.

## 6. POLICY STRATEGIES

Not permitting any additional direct access to the Road is essential to achieve the road vision.

**2. HEAD OF POWER**

This policy has been made pursuant to s54 of the *Transport Infrastructure Act 1994*.

**3. ROAD VISION**

The following vision for the Road sets the context within which the policy principles (section 5) and the policy strategies (section 6) will be applied.

The Road incorporates road which has been declared Motorway. The Road is a key component of the State-controlled Road network which connects to the East West Arterial (U19), the Gateway Motorway and the arterial network. The Road is a key arterial road for freight, commuter and general traffic movement and supports the Gateway Arterial as a key freight route, including Brisbane Airport.

The Road is facing pressure from increasing residential, industrial, and commercial development on both sides of the road as the surrounding suburbs expand and intensify.

In the future, general capacity will need to be accommodated at key intersections, interchanges and connections to accommodate future travel demands, growing traffic volumes, level of service and the need for safety and reliability of driving conditions. The purpose and vision of this Limited Access Policy is to preserve the Road's motorway and arterial function. As the Road includes a designated transport noise corridor, The Department of Transport and Main Roads requires the continuity of the noise barriers and that these noise barriers are not disrupted by access intrusion. The Department of Transport and Main Roads anticipates the need for improvements to the Motorway and arterial network, enhanced public and active transport.

Therefore, this Limited Access Policy for the Road does not permit any direct Access to the Road. All access to the Road is to be via the existing system of service and local government roads and controlled grade separated interchanges.

#### 4. APPLICATION

This policy will be applied in assessing applications made under s62 or s62A of the *Transport Infrastructure Act 1994*.

This policy will also be applied in the context of:

- (1) The preparation, amendment or review of local, state, and federal government planning schemes and other planning instruments to ensure that:
  - (a) land uses reflect the policy principles and policy strategies and preserve the function of the Road;
  - (b) the local road network is developed to provide access to land where access from the Road is not supported;
  - (c) the vision for the Road identified in section 3 is accommodated;
- (2) General transport planning relevant to managing access to limited access roads.
- (3) When assessing development applications made pursuant to the Planning Act for impacts on the Road.

#### 5. POLICY PRINCIPLES

When making a decision relating to the management of access between land and the Road under s62 or s62A of the *Transport Infrastructure Act 1994*, the following principles will be applied:

- (1) Access must not compromise safety of the users of the Road or any other transport infrastructure.
- (2) Access must be consistent with the functional requirements of the Road.
- (3) Access must be consistent with the current or planned intent for the Road corridor and the wider State-controlled Road network.

In applying the principles, regard will be had to the following strategies:

- (1) The strategies applying to vehicular access to State-controlled roads set out in the *Vehicular access to state-controlled roads policy*<sup>1</sup>; and
- (2) The Policy Strategies set out in section 6.

Where there is inconsistency between the strategies set out in the *Vehicular access to state-controlled roads policy* and the Policy Strategies set out in this policy, the Policy Strategies set out in this policy prevail.

#### 6. POLICY STRATEGIES

##### SAFETY

**Principle 1: vehicular access must not compromise safety of the users of the Road or any other transport infrastructure.**

<sup>1</sup> July 2019

The primary function of the Road is as an arterial route or motorway. To preserve this function, all direct property access to the Road have been removed as the Road was progressively upgraded to a Motorway. Access to the Road is provided via a system of service and local government roads on either side of the road and at controlled grade separated interchanges.

**Strategy 1 No additional vehicular access locations for properties adjoining the Road will be permitted.**

There are no direct property accesses onto the Road. To preserve the existing function of the Road as a Motorway, no new road access locations will be permitted.

## FUNCTION

**Principle 2: Vehicular access must be consistent with the functional requirements of the Road.**

The primary function of the Road is as an arterial route or motorway. To preserve this function, all direct property access to the Road have been removed as the Road was progressively upgraded to a Motorway. Access to the Road is provided via a system of service or local government roads on either side of the road and at controlled grade separated interchanges

**Strategy 1 No additional vehicular access locations for properties adjoining the Road will be permitted.**

There are no direct property accesses onto the Road. To preserve the existing function of the Road as a Motorway, no new road access locations will be permitted.

## FUTURE INTENT

**Principle 3: Vehicular access must be consistent with the current or planned intent for the wider network.**

The Department of Transport and Main Roads anticipates that additional capacity will need to be provided in the future, to accommodate growing traffic volumes, level of service and the need for safety.

**Strategy 1 No additional vehicular access locations for properties adjoining the Road will be permitted.**

There are no direct property accesses onto the Road. To maintain the existing safety levels along the Road, no new road access locations will be permitted.

## 7. APPROVAL

This policy applies to the Road and will be applied when making decisions under s62 of the *Transport Infrastructure Act 1994*.
