MEMORANDUM:

Circular

To

All Licensed Surveyors

83-2-75-6.

For the proper preparation of descriptions to be inserted in Deeds of grant and leases under the Act of 1888 it is necessary that the "Reference Table to Corners" on your plans of Survey should in all cases exhibit the "marks" graven on the Corner trees. You are requested therefore to see that this requirement of the Department has your careful attention, as in the event of its being omitted your plans and accounts will be held over until the information has been supplied.
