

Department of Public Lands
Survey Branch
Brisbane October 1879

Circular Memo
To Mr Licensed Surveyor

On and after 1st of January 1880 all lineal measurements, unless where otherwise directed, are to be made with the broad flat band steel tape to be maintained to the Brisbane Standard.

Surveyors who have not already provided themselves with the above instrument can be supplied with the same at cost price on application at this Office, within one month from this date.

The amount will afterwards be deducted from their vouchers.

WM Davidson
Deputy Surveyor General
