BRISBANE.

Survey Office
Department of Public Lands,

Brisbane 10th March, 1937.

Memorandum to Mr. Staff Surveyor E.D. Mellor

-----0-----

When carrying out an investigation survey,
it is a matter of importance for the surveyor to record in
his field-notes, whether or not material exists on or near
site of road, suitable for the construction of rock walling.

The economical use of walling considerably
minimises cost and materially affects the final location and
design.

J.P. Harvey

Surveyor-General.
