Transport Infrastructure Act 1994

NOTIFICATION OF DECLARATION OF A STATE-CONTROLLED ROAD AS A LIMITED ACCESS ROAD

Notice is hereby given under section 54(1) of the *Transport Infrastructure Act 1994* that the State-controlled road described in the Schedule is declared as a limited access road.

Alan Tesch
Director-General, Department of Main Roads

THE SCHEDULE

That on and from 18 April 2008, access to the State-controlled road as described in the schedule hereto be limited:

CUNNINGHAM HIGHWAY (Ipswich - Warwick) Ipswich City

Commencing at Warrill Creek near the north western corner of Lot 1 on RP131524, parish of Purga, thence generally southerly to a point near the south western corner of Lot 50 on CC308, parish of Mutdapilly.

Length ... 7.70 kilometres (approximately)

The parts of the State-controlled road to which access is to be limited are as shown on Limited Access Plans LA11884 - LA11886 (inclusive), in accord with the Access Management Policy as described hereunder. Copies of these plans are held in the office of the Director-General, Department of Main Roads, Brisbane and the Metropolitan District Office, Department of Main Roads, 183 Wharf Street, Spring Hill.

The reason for the declaration is to achieve a high level of access control to:

- ensure that the required arterial road functionality of this major road transport asset is achieved and motorway functionality is preserved, and
- maximise the traffic carrying and safety characteristics that are required for a major inter-regional connector.

Any person whose interests are affected by the declaration may —

- under section 485 of the *Transport Infrastructure Act 1994* — ask for the decision to be reviewed and appeal against the reviewed decision; and
- under the *Transport Planning and Coordination Act 1994*, part 5 — ask for the decision or the reviewed decision to be stayed.

Notice is hereby given that there is a policy in place in relation to the application of section 62 of the *Transport Infrastructure Act 1994* to access between the State-controlled road described in The Schedule and adjacent land. This policy is outlined below.

**POLICY FOR MANAGEMENT OF ACCESS ALONG THE CUNNINGHAM HIGHWAY
(Warrego Highway to Boonah Shire Boundary)**

1.0 Purpose and Scope of Policy

This policy has been prepared pursuant to section 54 of the *Transport Infrastructure Act 1994* as a policy about the application of section 62 of the *Transport Infrastructure Act 1994* to access between the Cunningham Highway (Warrego Highway to Boonah Shire Boundary), a limited access road, and individual properties.

It is intended that the Cunningham Highway (Warrego Highway to Boonah Shire Boundary) become a class of road which provides the highest degree of through traffic carrying capacity and safety. It is imperative that direct access is not permitted to the through carriageways of the highway, other than via the designated interchange ramps contrary to achieving this intention.

The purpose of declaring the Cunningham Highway (Warrego Highway to Boonah Shire Boundary), a limited access road was to enable the Department of Main Roads ("Main Roads") to achieve the following outcomes of:

- ensuring that the arterial road functionality of this major road transport asset is achieved and motorway functionality is preserved long term; and
- maximising the traffic carrying and safety characteristics required for a major inter-regional connector.

It is only through managing the convenience of direct individual access to adjacent land and the high levels of operational safety and efficiency required by road users of this vital interregional link that Main Roads can achieve the above outcomes demanded by the community.

The policy sets out the matters the Chief Executive will consider, either on the initiative of the Chief Executive or in response to an application from a person, when deciding whether or not to permit access to the road under section 62 of the *Transport Infrastructure Act 1994*. In addition, the policy sets out the objectives and rationale for the management of access.

2.0 Transitional provisions of limited access roads

The Cunningham Highway (Warrego Highway to Boonah Shire Boundary) (and adjacent road components) as shown on Plan Nos LA 10788 - 10798, 10136, 10137, 10379, 10806, 10807, 11884, 11885 and 11886 is a limited access road under the *Transport Infrastructure Act 1994*.

In accordance with transitional provision section 516 of the *Transport Infrastructure Act 1994*, the access-limited road declarations made under repealed sections of the *Transport Infrastructure Act 1994* for the Cunningham Highway (Warrego Highway to Boonah Shire Boundary), are deemed to be limited access road declarations under section 54 of the *Transport Infrastructure Act 1994*.

3.0 Main Roads powers and policy concerning access between a State-controlled road and adjacent land

Pursuant to the *Transport Infrastructure Act 1994* Main Roads is responsible for the design, construction, maintenance and management of State-controlled roads to a standard suitable for a particular road's function within the constraints of available budgets to ensure the safe and efficient movement of people and goods in Queensland.

As access management is critical to the ongoing operational effectiveness of all arterial roads, Main Roads has substantial legislative powers to manage access between any State-controlled road and adjacent land.

Main Roads has an overarching Access Policy (1 July 2000) which sets out its general policy position.

4.0 Objectives

The Cunningham Highway (Warrego Highway to Boonah Shire Boundary) forms part of the Brisbane - Sydney section of the National road network. It forms part of the main traffic corridor between Brisbane / Ipswich and Warwick and beyond to southern and interstate centres. It is part of the AusLink National Network.

The road links with the eastern section of the Ipswich Motorway, the Ipswich - Boonah Road, Ipswich-Rosewood Road, other State-controlled roads and several Local Government roads.

The Queensland Government's objective is to continue planning and investing in the upgrading of this road link to provide a facility which would satisfy predicted road travel and freight demand between Brisbane and the southern states into the future. The highway is of high importance to South East Queensland's economy.

The Cunningham Highway (Warrego Highway to Boonah Shire Boundary) will have a general posted speed limit of 100 km/h. Design standards utilised for the highway (future Motorway) are of a very high standard and public cost, and are in accordance with relevant Austroads and Main Roads guidelines and standards.

It is intended to remain a major traffic artery and part of the National road network.

Main Roads' ultimate objective is for the Cunningham Highway (Warrego Highway to Boonah Shire Boundary) to be declared as a motorway under section 27 of the *Transport Infrastructure Act 1994*.

Main Roads is progressively declaring sections of the Cunningham Highway as a motorway from the intersection of the Warrego Highway and the Cunningham Highway at Dinmore. These declarations will continue as the Cunningham Highway is progressively upgraded and at-grade intersections eliminated. The declarations of the Motorway will be extended to the Boonah Shire boundary near Mutdapilly.

It is vital to ensure that the capacities of interchanges and any associated service road system are not compromised to achieve the desired ultimate motorway functionality of the Cunningham Highway.

Main Roads will manage, control and rationalise access to adjacent land, associated exit and entry ramps and interchange components along the Cunningham Highway (Warrego Highway to Boonah Shire Boundary) to achieve ultimate motorway standards of safety and traffic efficiency. In managing access to these adjacent properties, Main Roads will make all efforts to ensure that the impacts of private access do not have an adverse impact on the operation of the motorway, its ramps and interchanges.

5.0 Management of Access - existing access

In accordance with transitional provision section 517 of the TIA, a previous decision about access under the *Transport Infrastructure Act 1994* is taken to be a decision under section 62 of the *Transport Infrastructure Act 1994*.

Plan Nos LA10788 - 10798, 10136, 10137, 10379, 10806, 10807, 11884, 11885 and 11886 show the current access arrangements for the entire area between Warrego Highway and Boonah Shire boundary, including highway ramps and the interchanges that are subject to limitation of access. Within this area access to the highway ramps etc. would only be permitted at the locations shown on the above plans for the existing land uses on the adjacent land, and in accordance with any current section 62 access approvals.

If the accesses shown on these plans are not currently constructed or in use then the owner of the property is required to seek access approval from Main Roads. It is an offence to construct an access or alter an access to any road in the limited access area without the approval of Main Roads.

However, should the operation of any access prove to cause unacceptable interference with traffic safety or efficiency, a section 62 decision about the access may be made. This decision may, for example, prohibit the access, alter its form or apply a condition to its use (see section 62 of the *Transport Infrastructure Act 1994*).

Triggers for reviewing the management of access may include the following:

- (i) Road infrastructure planning projects,
- (ii) Adverse changes in adjacent land use that impinges on road safety and efficiency,
- (iii) Adverse traffic impacts, and
- (iv) a generic review period of up to 10 years.

Planning will be updated from time to time and particular access arrangements may be varied.

6.0 Management of Access - on the Chief Executive's initiative

It is not anticipated that any further permanent direct access will be permitted to the limited access area on the initiative of Main Roads.

Short term temporary access may be permitted for single residential use where this does not adversely impact on the safety and efficiency of the Cunningham Highway (Warrego Highway to Boonah Shire Boundary) in line with the purpose and objectives of this policy.

7.0 Management of Access - in response to application by a person for a section 62 decision

Main Roads will exercise its powers under the *Transport Infrastructure Act 1994* to achieve the integrity and operation of the Cunningham Highway (Warrego Highway to Boonah Shire Boundary) and its associated interchanges and ramps to the appropriate standard in accordance with the outcomes and objectives outlined in the previous sections of this policy.

Where a an application is received for access for land adjacent to the Cunningham Highway (Warrego Highway to Boonah Shire Boundary) Main Roads will assess an application under section 62 of the *Transport Infrastructure Act 1994* to ensure any proposal does not adversely impact on the safety and efficiency of the Cunningham Highway (Ipswich to Warwick) in line with the purpose and objectives of this policy.

To obtain the purpose and objectives of this policy it is intended that as land is developed and / or the Cunningham Highway (Warrego Highway to Boonah Shire Boundary) is upgraded, existing direct access will be replaced with indirect access arrangements.

Where an application that does not involve a proposed development nor change in use of land adjacent to the Cunningham Highway (Warrego Highway to Boonah Shire Boundary) is made by a person, access may only be permitted on a temporary or indirect basis.

Where an application involves a proposed development or change in use of land adjacent to the Cunningham Highway (Warrego Highway to Boonah Shire Boundary) this may involve either:

- more traffic intensive or different traffic use of the access points shown on the above referenced plans; or
- use of any other access point directly to the limited access area.

To achieve the objectives of this policy it is not intended that:

- Use of existing approved access points be approved where this is associated with a change of land use, reconfiguration of a lot, more intensive use or different traffic use; and
- Additional permanent direct access locations will be approved.

An exception to this would be an application for access for a service centre that is the subject of a service centre agreement pursuant to a service centre strategy in force at the relevant time. The rationale for this is outlined in the Access policy for service centre facilities on limited access roads (9/02) and the Service centre policy (9/02).

8.0 Adjacent Land Use Planning

Typical land use & planning that forms part of the considerations for this policy include:

- (i) *Ipswich Planning Scheme* (2004): (17B from Ipswich Motorway to Ipswich Boundary)
 - Corridor is identified as an *existing highway/regional transport corridor*
 - Adjacent land uses include: Urban Development Areas (Business & Industry; Urban Residential; Special Uses/Special Opportunities; Green Space & Recreation; Local/Neighbourhood Centres; Other Major Centres), Regionally Significant Business & Industry Uses, Conservation Areas, Rural Pastoral Areas, Good Quality Agricultural Lands
 - Areas that are likely to intensify with development in the future including Urban Residential and Business & Industry.
- (ii) *Possible Future Major Intersuburban Link (to be further investigated)* from Blackstone crossing the highway south to Swanbank (refer Strategy Map 2 in Planning Scheme)
- (iii) *Regional Transport Corridor (to be further investigated)* from Cunningham Highway at Ripley to the east
- (iv) *Transport Corridor* from Reif St south to Binnies Rd (Daleys Rd in UBD) which crosses/underpasses the corridor
- (v) *Key Resource Areas*, identified at Willowbank
- (vi) *South East Queensland Regional Plan*
- (vii) *Ebenezer/Willowbank Major Development Area*, lies to the west of the corridor from Haigslea-Amberley Road to Goebels Road.

9.0 Approval of Policy

This policy shall:

- Apply to those areas of State-controlled road defined by the Limited Access Plans referred to in this policy; and
- Be used when applying section 62 of the *Transport Infrastructure Act 1994*.

Signed: E PETERS

Date: 13 March 2008

This policy may in future be amended at any time without a gazette notice if —

- (i) the amendment merely changes or repeals specific provision for 1 or more particular properties; and
- (ii) the owner or occupier of each property has been given written notice of the amendment.

Any person whose interests are affected by this policy may —

- (i) under section 485 of the *Transport Infrastructure Act 1994*—
ask for the decision to be reviewed and appeal against the reviewed decision; and
- (ii) under the *Transport Planning and Coordination Act 1994*, part 5 —
ask for the decision or the reviewed decision to be stayed.

Under section 62G of the *Transport Infrastructure Act 1994*, a person must not construct or change a physical means of entry or exit for traffic between land and a limited access road without first obtaining a decision under section 62(1) that authorises the construction or change. QUEENSLAND GOVERNMENT VACANCIES GAZETTE

The Queensland Public Service is committed to equal opportunity in employment. Selection will be given on the basis of merit only and fair consideration will be given to all applicants. The Queensland State Government's policy is to seek to retain skilled staff. Registered deployees who apply for an advertised job will be considered before other applicants. The symbol (h) appears next to vacancies where an exemption from this requirement applies. Deployees are to indicate in their application for the advertised job that they are registered with the Office of the Public Service Commissioner. The Queensland Public Service Commissioner is committed to equal opportunity in employment. Selection will be given on the basis of merit only and fair consideration will be given to all applicants.

CONTINUOUS APPLICANT POOLS

A continuous applicant pool allows you to apply for jobs within an occupation where vacancies are regularly available. This means that agencies can 'dip' into the pool for suitable applicants as soon as they have a vacancy. You can submit or refresh your application at any time. If you are refreshing your application, make sure that you indicate this either on your email or, if sending by post, in a covering letter. In search results, continuous applicant pools can be identified by 'Ongoing' in the 'Closes' column of a search result.

Note: If a continuous applicant pool is closing, applicants will be notified two weeks prior to this date. Applications may be used for up to six months after the pool closes.

MULTI-AGENCY POOLS

Some Queensland Government agencies are on the lookout for people to fill similar jobs or occupations at the same time. Some of these jobs have a fixed closing date and others are ongoing (continuous applicant pools). With multi-agency pools, you only have to apply once to access job opportunities across participating agencies. Your application will then be able to be viewed and assessed by all the agencies in that pool - or, if you prefer, you can specify that you want to be considered only for particular agencies. Make sure you check the specific vacancy to find out how each pool works.

HOW TO APPLY

When you have found the job you would like to apply for.

1. You can phone for a copy of the information kit or you can download the documents from the Smart Jobs and Careers website at www.jobs.qld.gov.au. The information kit will include:
 - the position or job description detailing: background of the department or work area; roles and responsibilities, and selection criteria
 - a job information package, outlining the procedure for preparing and sending in your application, and
 - an application cover sheet.
2. Do your homework - research the agency to understand the background to the job.
3. Prepare your application. This should include your:
 - completed cover sheet (available on jobs online or in the kit mailed to you)
 - covering letter
 - resumé / curriculum vitae
 - names and contact details of (2) referees, and
 - responses to the selection criteria if required.
4. Mail or email your application (Details of where and how are available in either the job description or the job information package).

Check with the job vacancy contact person if you are unsure about how or where to submit your application or how many copies to send. Make sure you send your application by the closing date. If you don't, it may not be accepted. Once your application is received, you will usually be sent a written acknowledgement.

When applying for Continuous Applicant Pools, please check each vacancy for application instructions.
