Note: Positions within the Parliamentary Service come within the ambit of the *Parliamentary Service Act 1988* and are not subject to the provisions of the *Public Service Act 1996*.

Notes.—As prescribed under sections 94, 95, 96 and 114 of the *Public Service Act 1996* and Part 1 of the *Appeals Directive* (No.: 11/96): an appeal can not be made to the Public Service Commissioner against a decision to appoint or second an officer or other person to Senior Officer levels (SO1 and SO2), and; otherwise, an officer entitled to appeal must satisfy the following requirements—

- the officer must have applied for a vacancy to which one of the following persons was promoted:
 - an officer of a Department;
 - a general employee of a Department with tenure;
 - an officer of a Public Service Office;
 - a general employee of a Public Service Office with tenure; or
 - a tenured public sector employee of a public sector unit listed in Schedule 3 of the *Appeals Directive*;
- the officer's application for the vacancy must have been received before the deadline for the receipt of applications;
- the officer's notice of appeal must be actually received by the Public Service Commissioner before the deadline for its receipt; and
- the officer must continue to be entitled to appeal (*see s. 1(1) of Appeals Directive*).

(a) Appointees may be required to serve in any part of the State. Where a centre is included under "Locality", the headquarters of the appointee will be at such centre unless otherwise determined.

(b) An appointment has been declared by the Public Service Commissioner, by gazette notice, to be a non-appealable appointment, pursuant to section 95 of the *Public Service Act 1996*.

- (c) Also being advertised in daily press and/or internet/email advertising or technical journals.
- (d) Appointment to a particular level will depend on qualifications and experience.
- (e) The appointee may be appointed in a temporary capacity. If a tenured employee of the Public Service is selected for appointment, the officer will retain tenured status.
- (f) Appointment may be made on the basis of a contract for a fixed term, pursuant to sections 69 and 70 of the *Public Service Act 1996*.
- (g) Senior Officer levels (SO1 and SO2): salary sacrifice may be made for optional benefits of employer funded superannuation options and professional organisation membership fees.
- (h) In accordance with section 5.13 of the *Directive 4/02, Deployment and Redeployment*, registered employees will be considered on relative merit.

ELECTORAL COMMISSION OF QUEENSLAND

In accordance with Section 63 of the *Electoral Act 1992*, I have ascertained and set out in Schedule A hereunder, as at the date indicated, the number of electors enrolled in each Electoral District for the State of Queensland and have determined the average district enrolment and the extent to which the number of electors enrolled in each district differs from the average enrolment.

Schedule B indicates the adjusted enrolment for Electoral Districts of 100,000 square kilometres or more in area, being the sum of the number of enrolled electors and the additional large district number as specified in Section 45 of the Act, and the extent to which those districts differ from the average district enrolment in Schedule A.

Classification of Major Hazard Facilities under the *Dangerous Goods Safety Management Act 2001*

In accordance with section 32 of the *Dangerous Goods Safety Management Act 2001*, the chief executive of the Department of Emergency Services, after consultation with the occupiers, has decided to classify the facilities listed below as major hazard facilities. This is to take effect on 14 October 2005.

The chief executive is reasonably satisfied that:

- (a) the quantity of hazardous materials stored or handled, or that is likely to be stored or handled, at each facility is more than the quantity prescribed under the *Dangerous Goods Safety Management Regulation 2001*; and
- (b) a hazardous materials emergency at any of these facilities could pose a risk to people, property or the environment outside such a facility.

Guidance Information

CHEM Services has published an advisory document, *Guidelines for Major Hazard Facilities – B – Notification and Classification*. It is strongly recommended that this document should be read before attempting to complete the Notification Form. The document also includes a copy of Schedule 2 of the Regulation. Copies of the Guidelines can be obtained on the Internet at the CHEM Services web page: <http://www.emergency.qld.gov.au/chem/>

Attachments to the Notification Form should include the following:

- (a) A brief description of the nature of the facility, including general site activities, storage, production and auxiliary processes. The description should emphasise sections of the facility which involve hazardous materials listed in Tables 1 and 2 of Schedule 2 of the *Dangerous Goods Safety Management Regulation 2001*, as well as any other dangerous goods or combustible liquids on site which should be listed in the site manifest as under Schedule 4 of the Regulation.
- (b) Scaled facility plan(s) showing the layout of the facility and the location of those systems (storages, tanks, pipelines, and vessels) which contain hazardous materials listed in Schedule 2 of the Regulation as well as any other dangerous goods or combustible liquids which should be listed on a site manifest under Schedule 4 of the Regulation. Indicative quantities (tonnes or cubic metres) of hazardous materials in the systems should be supplied.
- (c) The location of the system (storages, tanks, pipelines, vessels) which contains the largest quantity of each dangerous good or combustible liquid and showing the distance from that system to the facility boundaries. The quantity (tonnes or cubic metres) of hazardous material in each system should be supplied.
- (d) The number of people (including contractors) normally located at the facility and an indication of their distribution between day work and shift work.
- (e) For an existing facility, details of all incidents that have occurred at the facility during the last ten years which have had an impact outside the boundary of the facility on people, property or the environment. Incidents of a strictly environmental nature such as odour complaints, minor spills, etc. should not be included. For a facility that has been in operation for less than 10 years, include details of all such incidents since the facility commenced operations.
- (f) Scaled map(s) for the area up to 1 km from the facility showing the location of:
 - residences (dwelling places) and the straight line distance from the facility to the nearest residence;
 - industrial premises;
 - commercial premises;
 - kindergartens, preschools or schools;
 - sensitive developments where evacuation of occupants is not simple, e.g. a hospital, aged or infirm person care facility;
 - sensitive environmental areas such as watercourses, wet lands, tidal inlets, National Parks, municipal water supplies etc.; and
 - major infrastructures such as airports, railways, major electrical substations and ports.

Notification Form for Possible Major Hazard Facilities

Tables A and B of the Notification**Hazardous Materials at the Facility which are listed in Section 2 of the Regulation**

Tables 1 and 2 of Schedule 2 of the *Dangerous Goods Safety Management Regulation 2001* list certain hazardous materials with their corresponding prescribed quantities.

Record on Tables A and/or B of this Notification Form all hazardous materials listed in Tables 1 and 2 of Schedule 2 which are present or likely to be present at the facility in a quantity greater than two per cent of the corresponding prescribed quantity. Use Table A for hazardous substances listed in Table 1 of Schedule 2 and Table B for hazardous substances listed in Table 2 of Schedule 2.

For each hazardous material complete all details listed in Table A and/or B. Use the following guide to assist with completion of the Tables.

Column Heading in Table A and B	Comment
Row No.	This is an identifier in the table.
Hazardous Material	Provide the chemical name or, where this is not appropriate, the generic name of the hazardous material.
UN Number	This information is available from the Australian Dangerous Goods Code.
Dangerous Goods Classification	
Quantity in Facility	See Section 3 of <i>Guidelines for Major Hazard Facilities B – Notification and Classification</i> .
Physical Form	Specify the form in which the hazardous material is present e.g. solid, liquid, gas, mixture, formulation, liquified gas under pressure, etc.
Largest Containment System for the Hazardous Material	See Section 5.3 of <i>Guidelines for Major Hazard Facilities B – Notification and Classification</i> . Provide details of the quantity contained within this system and the maximum temperature and pressure of the hazardous material in the system. Indicate the location of this system on the scaled site plan of the facility.
Prescribed Quantity	Obtain this quantity from Table 1 or 2 of Schedule 2 of the Regulation. Express the total quantity at the facility as a fraction of the prescribed quantity.
Aggregate quantity of materials	Where no single hazardous material within the facility exceeds its prescribed quantity listed in the Regulation, apply the aggregation rule using the methodology contained in Schedule 2 of the Regulation and explained in <i>Guidelines for Major Hazard Facilities B – Notification and Classification</i> . Determine the aggregation total for each Table and, at the bottom of Table B, combine the two totals to obtain the total for the facility.
