Land codes

Research Guide to land codes at Queensland State Archives

Queensland State Archives (QSA) is the official repository for Queensland Government records selected for permanent retention because of their continuing value. The archived public records are from state government departments, state courts, local government authorities and statutory authorities. The records are in our facility at Runcorn, Brisbane, and open records are available for viewing in the Reading Room, free-of-charge.

The main finding aid for records held at QSA is the <u>Queensland State Archives' online catalogue</u> (known as ArchivesSearch).

The following citation abbreviations are used throughout our catalogue:

- ITM QSA Item (describes the item)
- PR Physical Representation (generally the original or microfilm copy)
- DR Digital Representation (for a digital image)
- S Series ID (for a series of records)
- A Agency ID (for the creating or responsible agency).

Aboriginal and Torres Strait Islander readers are advised that our catalogue contains images, names and voices of people who have died.

Listed below are the main land tenure codes and series identifiers for land files held at QSA.
