Police Service Administration Act 1990

CESSATION OF A POLICE ESTABLISHMENT

I, Deputy Commissioner P G TAYLOR of the Queensland Police Service, pursuant to s. 10.10 of the *Police Service Administration Act 1990*, and the powers delegated to me, hereby declare the following –

- The cessation of Silkstone Police Beat, 181 Blackstone Street, Silkstone QLD, 4304 may apply as a police establishment as from 20th April 2020.

This declaration is made at Townsville in the State of Queensland on the 20th day of April 2020

P G TAYLOR
Deputy Commissioner

Transport Infrastructure Act 1994

**NOTIFICATION OF DECLARATION OF A
STATE-CONTROLLED ROAD AS A LIMITED ACCESS ROAD**

Notice is hereby given under section 54(1) of the *Transport Infrastructure Act 1994* that the State-controlled road described in the Schedule is declared as a limited access road.

Pat Aprile
Delegate of the Director-General,
Department of Transport and Main Roads

THE SCHEDULE

On and from 7th April 2020, access to the State-controlled road described below will be limited:

BRUCE HIGHWAY
(St. Lawrence – Mackay) (10G)

Commencing at its intersection with Stockroute Road in Paget, then generally northerly to its intersection with the Peak Downs Highway in Paget.

Length: 3.32 kms

The parts of the State-controlled road to which access is to be limited are shown on Drawing Number LA12148. Copies of this plan are available for inspection free of charge during business hours at the Mackay office of the Department of Transport and Main Roads at 44 Nelson Street, Mackay Qld 4740.

The reason for the declaration is to achieve a high level of access control for the Bruce Highway, as described in the Schedule, to:

- (1) ensure that its arterial function is preserved;
- (2) maximise its traffic carrying capacity and safety characteristics;
- (3) provide appropriate access to the emerging residential area to the west of the Bruce Highway; and
- (4) to ensure an ongoing high level of access to service the existing industrial areas to the east of the Bruce Highway.

Any person whose interests are affected by the declaration may:

- (5) under section 485 of the *Transport Infrastructure Act 1994* – ask for the decision to make the declaration to be reviewed by the Chief Executive; and
- (6) under the *Transport Planning and Coordination Act 1994*, part 5, division 2 – apply for the original decision to be stayed; and
- (7) under the *Transport Planning and Coordination Act 1994*, part 5, division 3 –
 - (a) appeal against the Chief Executive's decision on the review to the court stated in Schedule 3 of the *Transport Infrastructure Act 1994* for the decision; and
 - (b) apply for the reviewed decision to be stayed.

This declaration supersedes access limitation as previously proclaimed in Government Gazette No. 115, page 2414 on 8 August 1981.

Notice is hereby given that there is a policy in place, pursuant to section 54 of the *Transport Infrastructure Act 1994*, in relation to the application of section 62 of the *Transport Infrastructure Act 1994* to access between the Bruce Highway, as described in the Schedule, and adjacent land.

The text of the policy is set out below.

POLICY FOR BRUCE HIGHWAY (ST LAWRENCE – MACKAY) (10G)

1. PURPOSE

The purpose of this policy is to protect the function, safety and efficiency of the Bruce Highway (St Lawrence - Mackay (the "Road")) by setting out the principles that will be applied when making decisions under s 62 of the *Transport Infrastructure Act 1994*.

The management of access is essential in ensuring that the vision for the Road can be achieved by:

- (1) maintaining high safety and efficiency levels;
- (2) catering for growth and facilitating changing land use; and
- (3) providing for increased road capacity.

2. HEAD OF POWER

This policy has been made pursuant to s 54(3) of the *Transport Infrastructure Act 1994*.

3. ROAD VISION

The following vision for the Road sets the context within which the Policy Principles (section 5) and the Policy Strategies (section 6) will be applied:

The Road is part of the National Highway road system. It is part of the major tourism, freight and road transport corridor along Queensland's eastern coastline which runs between Brisbane and Cairns. It serves commuter traffic, the coal mining and export industry, the tourism industry, cattle and sugar cane production industries and long distance road freight carriers.

The Road is facing specific pressure from:

- (1) increasing residential and commercial development in Ooralea, to the west of the Road; and
- (2) proximity to the Paget industrial area to the east of the Road.

It is anticipated that upgrades at the intersections of Boundary Road and Schmidtkes/Farrellys Road will be required in the future. The capacity of these intersections to manage increased traffic volumes will need to be improved to maintain the arterial function of the Road.

4. APPLICATION

This policy will be applied in assessing applications made under s 62 or 62A of the *Transport Infrastructure Act 1994*.

This policy will also be applied in:

- (1) the preparation, amendment or review of local, state and federal government planning schemes and other planning instruments to ensure that:
 - (a) land uses reflect the Policy Principles and Policy Strategies and preserve the function of the Road;
 - (b) the local road network is developed to provide access to land where access from the Road is not supported;
 - (c) the vision for the Road identified in section 3 is accommodated; and
- (2) general transport planning relevant to managing access to limited access roads.

5. POLICY PRINCIPLES

When making a decision relating to the management of access between land and the Road, the following principles will be applied:

- (1) vehicular access must not compromise the safety of the users of the Road or any other transport infrastructure;
- (2) vehicular access must be consistent with the functional requirements of the Road;
- (3) vehicular access must be consistent with the current or planned intent for the Road corridor and the wider State-controlled road network.

In applying the principles, regard will be had to the following strategies:

- (1) the strategies applying to vehicular access to State-controlled roads set out in the Vehicular access to State-controlled roads policy (July 2019); and
- (2) the Policy Strategies set out in section 6.

Where there is inconsistency between the strategies set out in the Vehicular access to State-controlled roads policy and the Policy Strategies set out in this policy, the Policy Strategies set out in this policy prevail.

A proposal will be consistent with this policy if it meets the Policy Principles and all relevant Policy Strategies.

6. POLICY STRATEGIES

SAFETY
Principle 1: vehicular access must not compromise the safety of the users of the Road or any other transport infrastructure

No Policy Strategies.

FUNCTION
Principle 2: Vehicular access must be consistent with the functional requirements of the Road

The primary function of the Road is as an arterial route into and out of Mackay. In order to avoid compromising the arterial function of the Road, existing accesses should be consolidated and reduced while new vehicular access to the road should perform a network function and encourage the establishment of an appropriate road hierarchy.

Strategy 1

New vehicular access points for individual properties or for private purposes is not supported

Vehicular access to individual properties should be via local roads pursuant to an appropriate road hierarchy.

Strategy 2

Existing vehicular access points are to be consolidated and reduced

Where land is developed, redeveloped or reconfigured, existing vehicular access points should be:

- removed and access redirected to a local road; or
- consolidated.

Strategy 3

New vehicular access points performing a network function must be sited and configured to preserve the function of the Road

New vehicular access points must:

- be dedicated as road to form part of an ultimate local road network;
- be located approximately 500 metres away from any part of an existing intersection; and
- be limited to a left-in, left-out arrangement with provision for pedestrian and cyclist safety.

FUTURE INTENT
Principle 3: Vehicular access must be consistent with the current or planned intent for the Road corridor and the wider network

No Policy Strategies

7. APPROVAL

This policy applies to the Road and will be applied when making decisions under s 62 of the *Transport Infrastructure Act 1994*.

Dated: 7th April 2020

Signed: Pat Aprile
District Director (Mackay/Whitsundays)
Delegate of the Director-General,
Department of Transport and Main Roads

8. ADDITIONAL INFORMATION

This policy may be amended at any time without a gazette notice if:

- (1) the amendment merely changes or repeals a specific provision for 1 or more particular properties; and
- (2) the owner or occupier of each property has been given written notice of the amendment.

Any person whose interests are affected by this policy may:

- (3) under s 485 of the *Transport Infrastructure Act 1994* – ask for the decision about the policy to be reviewed;
- (4) under Part 5, Division 2 of the *Transport Planning and Coordination Act 1994* – apply for the original decision to be stayed;
- (5) under Part 5, Division 3 of the *Transport Planning and Coordination Act 1994*:
 - (a) appeal against a decision on a review;
 - (b) apply for the reviewed decision to be stayed.

Under s 61 of the *Transport Infrastructure Act 1994*, a person must not construct or change a physical means of entry or exit for traffic between land and a limited access road without first obtaining a decision under s 62(1) that authorises the construction or change. Maximum penalty – 200 penalty units.
