

Impact Analysis Statement

Details

Lead department	Department of Transport and Main Roads
Name of the proposal	Amend the <i>Transport Operations (Road Use Management—Vehicle Registration) Regulation 2021</i> to provide for a 20 per cent reduction to particular registration fees.
Submission type (Summary IAS / Consultation IAS / Decision IAS)	Summary IAS
Title of related legislative or regulatory instrument	<i>Transport Operations (Road Use Management—Vehicle Registration) Regulation 2021</i>
Date of issue	1 July 2024

Proposal type	Details
Regulatory proposals where no RIA is required.	<p>Registration fees, under the <i>Transport Operations (Road Use Management—Vehicle Registration) Regulation 2021</i>, are regulated by the Department of Transport and Main Roads.</p> <p>The <i>Acts Interpretation (Fee Unit) Regulation 2022</i> (the AI Fees Regulation) prescribes the value of a fee unit for a given Act, to enable the implementation of a regulatory fee unit model that streamlines the annual process of indexing regulatory fees. For the 2024-25 financial year, the value of the fee unit prescribed in section 2 of the AI Fees Regulation is not increasing.</p> <p>However, the registration fee for light vehicles, dealer plates, all ambulances and all motorised caravans, fees for conditional registration and traffic improvement fees will be reduced by 20 per cent, for a 12-month period, effective from 16 September 2024. The reduction will also apply to a small number of heavy vehicles such as special interest vehicles and farm plate vehicles. This change will apply to all vehicles listed regardless of their purpose of use and will apply in addition to existing concessions.</p> <p><i>The amendment proposes a fee variation below the government endorsed indexation factor, and therefore no RIA is required under the Better Regulation Policy.</i></p>

Signed/Approved

Sally Stannard
