Mattia Uusimaki | Sheetmetal apprentice

Mattia continues family tradition in trades

Mattia Uusimaki is continuing her family tradition and choosing a career in skilled trades.

Raised in Ipswich, Mattia chose a Certificate III in Engineering – Fabrication Trade, following in the footsteps of her father and grandfather, who were fitters and turners, and another grandfather, who was a blacksmith.

Mattia is drawing from her own positive experiences and the supportive environment provided by TAFE to inspire other women.

“I’m a big advocate for women, especially [for women] starting an apprenticeship,” she said.

Now based in Gladstone, Mattia is excited about the prospects of job flexibility and says obtaining her certificate will advance her career while setting an example for other mothers striving for work-life balance.

“Once I get my certificate, I’ll be able to go anywhere, work anywhere, and have a flexible roster,” she said.

Mattia’s story exemplifies the transformative impact of programs like Free TAFE in empowering individuals to pursue their career aspirations, while promoting inclusivity and diversity in the workforce.
