

Queensland Sheep and Goat Electronic Identification Assistance Scheme

Saleyard guidelines

Mandatory individual electronic identification (eID) for sheep and goats is being introduced nationally to strengthen livestock traceability and commences in Queensland on 1 January 2025. Sheep and goat eID improves biosecurity and traceability including accurate and timely tracing to help reduce the duration and impact of an emergency animal disease or residue incident.

Purpose

The purpose of the Queensland Sheep and Goat Electronic Identification Assistance Scheme (Scheme) is to encourage uptake and compliance with mandatory eID of sheep and goats by providing financial assistance via a rebate to eligible saleyard operators, to offset up to half the cost of purchasing eligible items (see list below).

Assistance available

Saleyard operators may be eligible for a rebate of up to 50% of the cost of eligible items purchased on or after 1 January 2023.

The maximum amount of assistance payable to an applicant depends on the gross number of sheep and/or goats presented on average per sale:

- Small saleyards (1-500 sheep and/or goats/week): \$2,500 per Queensland PIC.
- Large saleyards (501 or more sheep and/or goats/week): \$65,000 per Queensland PIC.
