## SCHEDULE 1

QCA Final Report Page Reference	Recommendation
98	The Authority recommends that Seqwater implement improvements to its renewals planning and processes as outlined in the Sinclair Knight Merz Final Report by 30 June 2015.
101	The Authority recommends that Seqwater adopt modern equivalent replacement costs and/or more specific asset class indices, as appropriate, when preparing renewal expenditure estimates.
122	<p>The Authority recommends that, in forecasting renewals expenditure, Seqwater should consult with irrigators to establish whether there is a need for, and the nature of:</p> <p>(a) high-level options analysis for material renewals expenditures expected to occur over the Authority's recommended planning period (with a material renewal expenditure being defined as one which accounts for 10% or more in present value terms of total forecast renewals expenditure); and</p> <p>(b) detailed options analysis for all material renewals expenditures expected to occur within the subsequent five-year regulatory period.</p>
173	<p>The Authority recommends that:</p> <p>(a) Seqwater continue to upgrade its policies, procedures, and information for the budgeting, incurrence and management of costs for irrigation tariff groups.</p> <p>(b) Seqwater annually publish enhanced network service plans (NSPs) on its website by 30 September each year (starting in 2013) for each water supply scheme (WSS) comparing actual operating and renewals costs against forecast and account for significant variances.</p> <p>(c) Seqwater establish and support irrigation advisory committees.</p> <p>(d) Seqwater recover the proposed annual costs (\$49,000), associated with the NSPs and irrigation advisory committees, from irrigators only – shared equally across the seven WSSs (i.e. \$7,000 per WSS annually).</p> <p>(e) After consulting on the basis of these NSPs and through the irrigation advisory committees, Seqwater should annually publish on its website any stakeholder submissions and Seqwater's responses and decisions.</p> <p>(f) Whilst Seqwater's Statement of Obligations now requires Seqwater to consult with irrigation customers, as it does not specify (at least) annual consultation, Seqwater should amend its Strategic and Operational Plans to this effect.</p>
