

Insight 2 Industry

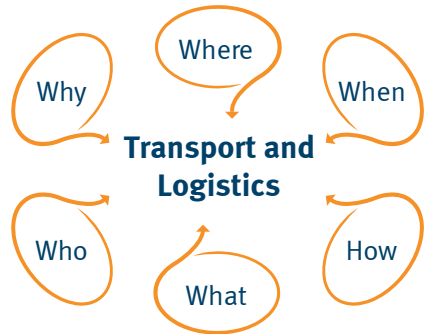

Queensland
Government

Often referred to as the backbone of industry, transport and logistics plays a part in everything we consume or own – making sure we get the right goods, at the right time and in the right place.

What is Insight 2 Industry?

The Insight 2 Industry (I2I) initiative focusses on businesses within the transport and logistics industry engaging with local schools to raise industry awareness and highlight available career pathways through industry-school partnerships.

The TLI Connect team has made it easy for industry to engage with your local schools with the creation of the I2I resource pack. The resource pack is broken into three levels of engagement which include videos, lesson plans, presentations, tools and engagement aids that can be tailored to the approach you and the school wish to pursue through I2I.
