

Contributing to the Queensland Government's objectives for the community

The department contributes to all of the Queensland Government's objectives for the community:

- Creating jobs and a diverse economy
- Delivering quality frontline services
- Building safe, caring and connected communities
- Protecting the environment.

Responding to *The Queensland Plan*

The department's policies, programs and services align with the Queensland Government's response to *The Queensland Plan*. Transport has a critical role in supporting the delivery of *The Queensland Plan* through its ability to enable economic activity and to connect people and communities.

Key departmental initiatives that support the delivery of the plan include:

- convening the 'Safer Roads, Safer Queensland' forum, which informed the *Queensland Road Safety Strategy 2015–2021* and *Queensland's Road Safety Action Plan 2015–17*

- allocating additional funds to local government through the Transport Infrastructure Development Scheme over the next two years to provide critical transport infrastructure in regional areas
- planning and delivery for the transport task for spectators and workforce for the Gold Coast 2018 Commonwealth Games.
