HAVING TROUBLE DECIDING ON YOUR CAREER OF CHOICE?

Under the Back to Work Program's Pre-employment Program (PEP), eligible* jobseekers can receive support from one of our dedicated Jobseeker Officers to understand their individual career goals, employment pathways and develop a plan for the future.

By answering a few simple questions, we can work with you to identify your strengths and work preferences. Jobseeker Brianna recently undertook the assessment and was surprised at the accuracy of her results, which revealed that the career options best suited to her included sketch artist, screen printer, digital graphic designer or artist. Brianna is currently employed at a mobile art studio and the results of the Harrison Career Assessment Tool have given her the confidence and direction to pursue her career in this field even further.

Our Back to Work Jobseeker Officers are regionally based and can work with individuals to kick-start their careers.

*Eligibility criteria apply.
