

My brother
nearly scammed
me!

One day Olivia was on her Dad's
computer playing a game.

A few minutes later, a pop up ad had just
came up. It said You Just Won \$1000 !

She ran to her mum and told her that she'd just won some money.

Her Mum said "Don't click on that, it's a scam!"

But her little brother, Tom, had a grin
that said *Oops I already did.*

(Gasp) "Mum told me not to click that
button and now you have!" Olivia yelled.

Thanks to you I'll be in so much trouble!
thought Olivia.

\$ Olivia told Mum that Tom pressed the button. \$

7. \$ Tom ran off crying. \$

8. \$ Her mum said softly "Sweetie, Tom didn't know that, he's only little." \$

Then mum went to investigate but she noticed Tom hadn't actually clicked the button.

Olivia was so relieved to hear the good news!

THE *(very happy)* END!
